

RAZORBACKS®

ANATOMY OF OUR OFFENSE

10 Word Standard

Quality shot by our best scorers in best scoring zones

Strategies

* Identify quality shots

* Identify best scorers

* Identify best scoring zones

Indicators

* FG%

* FT Rate

* TO Rate

Quality Shots

* Time/Score

* Made in practice

* Was it "best" shot

Best Scorers

* Green Light License

* Practice Earned

* Game Maintained

Scoring Zones

* In the Paint

* At the FT Line

* Beyond the Arc

FG %: (40/35/75)

FT Rate: (Top 10)

TO Rate: (Top 5)

TACTICS

Transition → Race/Space → Flow → Family → Action → Rebound

Our offense will be **Functionally Fast**. We will play at the fastest tempo under which we can function without committing turnovers. We will value spacing and execution. We will have four versatile perimeter players on the floor at all times with an interior player who can rim run to establish our transition attack. Rabbits will rim run, Rackers will push with the ball, Locks will sprint the floor to deep corners, Dragons will trail the action then initiate our FLOW. Our Race/Space will take up the first seven seconds of the shot clock. The next 2-3 seconds will make the defense wrong with FLOW reads. The next 1-3 seconds will be an action created by the reads. This will leave us 8-10 seconds of the possession to call one of our FAMILY of set plays to create a great shot. We will then rebound with 3 and a half players to get 2nd chance opportunities.

We will **Make Defenses Wrong** regardless of how they prepare to defend us.

We will be able to score against top competition at home or on the road.

We will use analytics to provide information to help us trust our gut.

We will be efficient in time/score special situations.

We will utilize 3 for 2 and 2 for 1 opportunities.

We will have an identity anyone can see.

We will be "fun" to watch.

We will WIN with it.

RAZORBACKS®

Does our offense allow us to beat the best teams we could possibly ever play

Does our offense allow our players to make any defensive scheme wrong

Does our offense allow our best players to get the best shots in their best scoring zones
