CONTEMPORARY MODERN APARTMENT IN MANHATTAN **THE PINNACLE OF SOPHISTICATION AND URBAN ELEGANCE**

Covet Collection proudly presents its latest masterpiece, a contemporary modern apartment in the heart of Manhattan, NY, featuring Modern Essentials Capsule Collection products, from Greg Natale. Spanning 200 square meters over two floors, this luxurious abode features six exquisitely designed rooms, epitomizing modern elegance with an exquisite blend of wood and marble finishes and a sophisticated palette of neutral tones.

ENTRYWAY: A GRAND WELCOME

Upon entering, guests are greeted by a meticulously designed entryway that sets the tone for the entire apartment. The space showcases the Gere Coffee Table, Hutton Sofa, Anjelica Sideboard, Margaux Table Lamp, and Anjelica Side Table. Each piece harmonizes to create an inviting yet refined atmosphere.

LIVING SPACES: ELEGANCE MEETS COMFORT

Ascending the stairs to the first floor, the apartment reveals two distinct living room spaces, each designed for relaxation and intimate gatherings. The main living room features the Gere Coffee Table, Hutton Armchair, and Anjelica Side Table, offering a serene setting with breathtaking views of Manhattan.

READING CORNER: A COZY NOOK

There is also a small and charming reading corner, an all-white room furnished with the Hutton Sofa and Anjelica Coffee Table. This cozy nook is designed for quiet moments of reading and relaxation.

DINING ROOM: THE HEART OF THE HOME

The open-space dining room, seamlessly integrated with the main living area, boasts the Angelica Oval Dining Table and Dunaway Dining Chairs. This elegant setup is perfect for hosting dinner parties and casual family meals. The combination of the table's sophisticated design and the chairs' comfort creates an inviting atmosphere that encourages long, leisurely dining experiences and meaningful conversations.

MASTER BEDROOM: A SANCTUARY OF STYLE

The master bedroom is a serene sanctuary, adorned with the Turner ottoman, Berenson bed, Anjelica nightstand, Margaux table lamp, and Anjelica dresser. This space is enriched with neutral tones complemented by subtle pink accents, exuding a sense of calm and sophistication. The attached closet offers ample storage, ensuring the room remains clutter-free and serene.

REDEFINING LUXURY WITH NATURE AND SUSTAINABILITY

Located in the heart of rural Staffordshire, the award-winning The Tawny provides an experience like no other. Set within the 70-acre grounds of the wonderfully restored wild garden of Consall Hall Estate, guests can truly relax and recharge.

Launched in 2021, this deconstructed hotel takes all of the best bits from a traditional hotel experience which includes fabulous restaurant and dining options, room service, amazing guest facilities, heated outdoor pool, and combines them with beautiful private country spaces guests can call their own.

Guests can choose from a variety of accommodation styles, including immaculately designed Shepherds Huts, captivating Treehouses, beautiful Boathouses, luxurious Retreats, secluded Lookouts, and even their very own private Farmhouse. Each accommodation has been inspired by its surroundings and features sympathetic design aesthetics, accented by luxurious touches that intertwine with the

natural environment. The Tawny aims to be an exemplary showcase of responsible and sustainable tourism. This is evident at every touchpoint, be it the wood cladding used on the cabin exteriors, the foundations engineered not to harm the tree roots, or the British crafted Hypnos mattresses chosen for their comfort and sustainability credentials.

Josh Chadwick, The Tawny General Manager, explains, "The Tawny is the UK's first deconstructed hotel. We've taken all the best bits from a traditional luxury hotel experience and combined them with your own private space, a country escape to call your own for the duration of your stay. Our guests want to relax in nature's embrace but don't want to compromise on their well-deserved creature comforts. A great night's sleep is fundamental to our guests' wellbeing and choosing a bed of exceptional quality was never up for debate."

One of the core components of guest wellbeing at The Tawny is a restful night's sleep. As part of its luxury

offering, each accommodation features a mattress from the world's first carbon neutral bedmaker, Hypnos.

David Baldry, Group Managing Director at Hypnos said, "We believe that an exceptional sleep experience is at the heart of a memorable stay. As a proud British bedmaker, our legacy of handcrafting mattresses and beds is rooted in tradition, innovation, and a passion for excellence. We work closely with hospitality brands all over the world to ensure their guests have the ultimate nights' sleep. Like The Tawny, sustainability is embedded within our business. Each of our products are ethically made using responsibly sourced materials and are tailored to offer the perfect balance of comfort and performance."

You can hear more from Josh Chadwick and take an exclusive look around The Tawny estate in the Hotel Hypnos video series, available to view at www.hypnoscontractbeds.com

The Hypnos Contract Beds team will be at the Independent Hotel Show at Olympia 15-16 October stand 1428, and at HIX at the Business Design Centre 27-28 November stand 28 | www.hypnoscontractbeds.com

THE MONTMARTRE APARTMENT: A PARISIAN DESIGN JEWEL BLENDING CHARM AND MODERNITY

Mélie Violet redefines luxury interior design in Paris.

Located in the iconic Sacré Coeur district of Paris, the "Montmartre" project is the latest creation of renowned interior designer Mélie Violet, owner of Imagine design studio, specializing in high-end major renovations.

In the heart of Montmartre, this 35m² apartment on the top floor of a historic building is designed to maximize space and light, representing a symbiosis of old and new. The extension into the attic offers a breathtaking view of the Parisian sky, enhancing the natural light.

The interior, marked by softness and sensuality, stands out for its use of high-quality materials. The Hungarian point parquet and subtle, warm colors reflect a feminine and refined aesthetic. Each element, from the fabrics to the vintage pieces, has been meticulously chosen to highlight the uniqueness of the place.

FUNCTIONALITY AND COMFORT

The kitchen is designed in a clean and functional style, with light wood surfaces reflecting a rustic and contemporary mix. The floor features ancient marble cabochon paving in beige and rust colors, delicately bordered by a brass finish. The soft and bright porcelain backsplash highlights modern elements like the brass faucet and open shelves, optimizing the functionality of the space.

The dining room is designed to be welcoming, with a walnut wall and a flea-market mirror with golden details as highlights. The travertine table and the custom-designed fabric bench create a cocoon of comfort, style, and originality.

ELEGANT ATMOSPHERE

A blend of art and design characterizes this living space, where natural light and contemporary furniture create an atmosphere that is both elegant and comfortable. The furniture includes a sculptural cream sofa, round walnut coffee tables, and custom-made poufs, offering both originality and comfort. The wallpaper, a majestic mural depicting the Tuscan lands of Italy, has been set as a backdrop to the custom-designed library. It surrounds the newly installed fireplace, inviting gathering. The living room thus presents a perfect balance between lifestyle and elegance.

Apartment Montmartre is more than just a place of residence; it's a unique living experience in the heart of Paris, where every detail reflects a level of originality and elegance rare in urban residential projects.

SERENITY AND SOFTNESS

Located in the mezzanine, the bedroom is a space that combines tradition and modernity. The original beams add historical character, while the purple carpet offers comfort and warmth. Carefully chosen lighting and floral-patterned bed linen create a peaceful and restful atmosphere. Every nook has been optimized for storage, without visually cluttering the space.

The Montmartre apartment's bathroom is a celebration of softness and elegance. The wall tiles, in shades of powder pink, create a delicately feminine and soothing ambiance. The smooth texture of the tiles is enhanced by the contrast of hexagonal floor tiles in a Siena earth hue, adding depth to the room. The brass finishes and the design of the washbasin unit contribute to the refinement and serenity of the space.

BESPOKE CREATIVE INTERIOR DESIGN SERVICES FROM dk INTERIORS

Founded in 2008 dk interiors specialises in creating stylish, understated, considered and timeless spaces with meticulous attention to detail from concept to installation.

The services offered include Interior Design, Interior Architecture, as well as styling and interior consultation, encompassing spatial planning, bathroom, kitchen and joinery design together with sourcing of beautiful finishes, furniture, materials and textiles, all individually tailored and unique to each project.

Supported by a skilled team of contractors, craftsmen and suppliers Debra and her team deliver bespoke interiors combining style seamlessly with function. Placing focus and commitment in understanding and interpreting a client's brief, the end result reflecting a client's personality, lifestyle and needs

Designing a project is a collaboration not only between the client and designer but also between the trusted trades, craftsman, suppliers appointed to execute the project.

The process starts with the client brief, translated into a visual direction using many mediums to illustrate the vision and establish the narrative. Social media platforms play a large part in starting off the process, Pinterest for mood boards, Instagram for visual images and direction, even TikTok for trends.

Most importantly is understanding the client's needs, lifestyle, direction, brief and of course the budget.

**REGISTERED
INTERIOR
DESIGNER®**
COLLECTIVE MARK

Our role in executing and designing to the brief, is to inspire and stimulate the client with ideas they would not be able to achieve alone, possibly due to time pressures, knowledge, desire or confidence.

We attempt to push the boundaries in all areas of design, through materials, colours, textures, spatial planning, lighting, considering every aspect in creating an interesting home reflecting the client's own passions.

Our design ethos is to be true to yourself, have self belief but always open to constructive feedback.

We like to re-use, re-purpose, mix old and new, vintage and modern, not just to specify all new pieces. It is hard to be truly sustainable but we try, our preference is for natural materials, finishes, fabrics and processes

Art is one of our real passions, nothing is more satisfying than placing a client's beloved pieces as an integral part of the design whether it is art, photography, objet, artefacts, sculpture or sourcing pieces to compliment their own possessions.

The illustrated project is a real testament to the client owning fantastic pieces, stimulating the design direction of the project in terms of spatial planning, colour, style, and even joinery design

Debra Kacher, the founder of dk interiors is a full registered member of the BIID, a director on Council and an active committee member.

A timeless, elegant and simple approach *to luxury interiors*

Laila, the creative force behind Laila Interiors, has a remarkable ability to bring interiors to life through her expert design skills.

With a keen eye for detail and a deep understanding of aesthetics, she masterfully balances formality with a sense of fun, creating spaces that are both elegant, lively and infused with personality, making them uniquely tailored to her clients' needs.

Whether crafting a sophisticated formal setting or a vibrant, playful atmosphere, Laila ensures that every interior is both functional and full of character.

The studio's work is characterized by attention to detail, use of high-quality materials, and a timeless sense of style that has earned them recognition in the design community.

Laila interiors is a prestigious and award-winning interior design studio based in London.

Renowned for its innovative and elegant design solutions, the studio specializes in creating bespoke interiors that reflect the unique tastes and lifestyles of its clients. Whether working on residential or commercial projects.

Laila and her professional team combines a deep understanding of design principles with a passion for aesthetics to deliver spaces that are not only beautiful but also functional.

AN INTENSE WAY OF LIVING

OCEAN BLUE RESIDENCE PROJECT

With a seamless fusion of modern elegance and timeless sophistication, BRABBU showcases its newest luxury residence project, an exquisite living area in the beautiful city of Barcelona.

BRABBU's trademark items are showcased in this carefully planned environment, each one chosen to accentuate the overall look and foster an ambience of sophisticated grandeur.

HARMONIOUS AND INVITING SPACE

At the heart of this stunning living room is the LALLAN Center Table. This exquisite piece, with its unique blend of wood and polished brass, serves as the room's focal point, marrying functionality with unparalleled style. The table's sleek design and warm tones complement the surrounding decor, creating a harmonious and inviting space.

Flanking the center table are the HERMES Sofas, upholstered in rich blue velvet. These luxurious sofas provide both comfort and sophistication, with their elegant curves and plush seating inviting relaxation. The sofas are perfectly paired with the NOAKI Stools, which feature a vibrant green fabric and gold accents, adding a pop of colour and an extra touch of luxury.

EXQUISITE DETAILS

Adding to the room's aesthetic is the LURAY Side Table, a masterpiece of design that lends beautifully to the MERFILUS Rug by Rug'Society, a neutral-toned carpet made with Botanical Silk and Natural Wool, that ties the colour scheme wonderfully. The room is bathed in natural light, thanks to the expansive windows and sheer drapes, which create a bright and airy ambience. A modern chandelier hangs gracefully from the ceiling, casting a warm glow and highlighting the room's exquisite details.

LIVING SPACES

BRABBU's dedication to craftsmanship and design excellence is evident in every aspect of this Ocean Blue Luxury Residence Project in Barcelona. From the carefully selected materials to the intricate design elements, this project is a testament to BRABBU's ability to create living spaces that are both appealing and functional.

BREAKING NEW GROUND IN EXTRACTOR HOB TECHNOLOGY

Extractor hobs, like those in the Elica NikolaTesla range, are perfect for enthusiastic cooks who enjoy elegant, spacious, open kitchen environments, especially as the extraction integrated within the hob only serves to complement the sleek appearance of the kitchen itself.

NikolaTesla Unplugged is controlled through fixed click-release knobs with analogue touch & feel, providing quick and intuitive access to its features. All elements are incorporated into a bold-lined appearance, developed to intelligently separate the cooking zone from the control area. An elegant shock-resistant bulkhead protects the control area from every possible contact with cookware and from any unwanted spills.

The bold style knobs give NikolaTesla Unplugged a robust and high-quality look. Their perfect grip gives stable and precise control, while the magnetic release of the outer cover makes cleaning and maintenance operations very quick and simple. The central glass flap stylishly conceals the extraction area and closing it deactivates extraction.

Unplugged is equipped with three automatic cooking features: Melting, thanks to which it is no longer necessary to stir delicate ingredients, so they don't burn the bottom of the pan; Warming, that guarantees proper heat levels for slow cooking, like for sauces and creams, in addition to keeping dishes warm, and Simmering, that prevents boiling water from overflowing.

NikolaTesla Unplugged also helps the user cook faster by bringing water to

a boil 30% quicker than a traditional hob, while in the same way food may be fried in half the time, making it crispier and more flavourful.

Finally, the two Bridge zones allow for the preparation of dishes that require the use of over-sized cookware, by joining two adjacent cooking zones and guaranteeing even cooking over its entire surface.

Thanks to the Autocapture feature, you can focus just on what you are cooking and not on unpleasant odours, as NikolaTesla Unplugged automatically sets the most suitable air extraction power, by gradually adjusting and lowering it to remove odours left behind after cooking. The powerful extraction system, positioned in the centre of the hob, guarantees high fume capture levels, as it creates very high air flow speeds. Thanks to Comfort Silence technology, noise levels are extremely low even at maximum speed, thus allowing for easy conversation while cooking.

As a premium product, manufacturers have focused on larger sizes but now, designed to meet the needs of those who only

have a smaller space, NikolaTesla FIT brings style and performance to homes where space is limited. It is the first induction hob with integrated extraction that can be installed in a standard base unit. There are two widths of hob 60cm and 72cm, but both fit in a standard 60cm base. The elegant design can be installed flush with the work surface and the shape of the extraction inlet allows maximum flexibility for pan sizes. A gentle push opens the flap, and the extractor starts.

Other products in the NikolaTesla range include:

Switch's exceptionally elegant and iconic design is available in both black with cast iron accents and white glass with polished chrome trim. Both will look stunning in any kitchen.

NikolaTesla Alpha was designed to bring clean design and the most important extraction hob features at a highly competitive price point. It can be easily installed in cabinet bases of both 80 cm and 90 cm and the vitro-ceramic surface is completely smooth for easy cleaning and maintenance.

DISCOVER TIMELESS ELEGANCE WITH TOMMY FRANKS

At Tommy Franks, we believe your home should reflect your unique style and personality. Our passion lies in creating exquisite furniture that not only enhances your living spaces but also tells a story—a story of craftsmanship, quality, and timeless elegance.

Craftsmanship Beyond Compare

Every piece at Tommy Franks is a testament to the mastery of traditional Italian craftsmanship, blended with the finest materials sourced from around the world. Our artisans meticulously handcraft each detail, ensuring that every item is not just a piece of furniture, but a work of art. From the smooth curves of a hand-carved chair to the intricate inlay of a bespoke dining table, our commitment to excellence shines through in every creation.

A Symphony of Style and Functionality

Furniture should be as functional as it is beautiful. That's why we design pieces that offer both style and practicality. Whether it's a luxurious sofa that invites you to unwind after a long day or a dining table that becomes the heart of your family gatherings, Tommy Franks seamlessly combines elegance with utility.

Exclusive Designs for Discerning Tastes

Our collections are curated for those with discerning tastes—individuals who appreciate the finer things in life and seek furniture that resonates with their personal aesthetic. From modern minimalism to classic sophistication, our diverse range ensures there's something for every style. We also offer customisation options, allowing you to personalise your pieces to perfectly suit your home.

Trade Accounts with Exceptional Benefits

At Tommy Franks, we understand the needs of professionals in the interior design and retail sectors. That's why we offer trade accounts with no minimum order requirements, making it easier for you to access our premium collections. Additionally, we provide complimentary delivery to client addresses across Great Britain, ensuring a seamless experience from selection to installation.

Sustainable Luxury

Our commitment to sustainability is unwavering. We take pride in using eco-friendly materials and processes that reduce our environmental

impact. Our dedication to responsible sourcing and sustainable production practices means you can enjoy luxury furniture with a clear conscience.

Experience the Tommy Franks Difference

Transform your spaces into sanctuaries of elegance with Tommy Franks. Visit tommyfranks.co.uk to explore our collections, open a trade account, or book a consultation with our design experts to create bespoke pieces tailored to your needs. ARE YOU **AUTUMN** READY?

As the leaves begin to change and the clocks go back, then begins the mad rush to 'get the house ready for Christmas'. For most designers, this means clients' dining rooms- an often-boring room that's shut away until guests are invited round. So, let's spice things up!

great talking points at dinner parties. Tortoise shell style glasses adding warmth and pattern, maiden hair ferns adding a whimsical and soft side, and then an art deco inspired cocktail set for when the clock strikes 10!

Dining table design and tablescaping have become a reflection of people's personalities, just like fashion, and have grown in popularity so much recently. If the furniture is elegant and timeless, why not be playful with glassware and China, layering pattern and texture to suit the menu or the guests themselves. The possibilities are endless!

Dining rooms are often used throughout the autumn and winter months, so it makes sense to go with a luxurious and deeper palette. The fig and juniper painted walls worked perfectly with our Coach House 'Storm Dining Chair'. In contrast to the darker parquet floor, we furnished with a dining table and sideboard from our 'Imperial Furniture Collection'. The detailing on the furniture is second to none,

from the paneling on the sideboard to the soft curves in the chairs, it's a modern take on the traditional.

With such a formal canvas which suits the space, we think it's nice to lighten the mood with more playful accessories, which also makes for

GIANFRANCO FERRÉ HOME

2024 COLLECTION

INDUSTRIAL MINIMALISM

Industrial style and cosy mood. Gianfranco Ferré Home's 2024 collection focuses on contrasts, exploring the harmony between seemingly opposing concepts.

The metropolitan aesthetic typical of the brand can be found in industrial lines with metal elements, combined with organic shapes and soft fabrics to add depth and a sense of hospitality. The neutral, almost impalpable colour palette makes the whole look sophisticated and versatile, with delicate shades of grey, white and wood enlivened by green, in an acid and deep tone, with a saturation that is not too intense.

Livening up the collection are sculptural seats with retro charm, including the Haaga sofa and the Brygge armchair, characterised by contemporary design and flowing lines. Like works of modern art creatively responding to the desire to relax, Brygge seats are characterised by a shape reminiscent of the fingers of a hand, ready to welcome and cradle. Original and sophisticated, the Kamppi armchairs and the Islington chaise longue also reflect the same vintage and industrial mood, enhanced in this case by the chrome-finished profiles, which fit harmoniously into spaces adding an aura of modernity and comfort. The softness and prominence of the seating creates a striking contrast to the simplicity of the Japandi-style furniture, made of Canaletto walnut and characterised by minimalist lines. Emblematic for its simple and cosy aesthetics is the Kaunas sofa, composed of linear and modular modules, raised from the

floor thanks to solid wood feet in Canaletto walnut.

Within the collection, the creative use of glass introduces the theme of presence and absence, further enhancing the balance between rigour and softness that characterises the entire proposal. Exemplary in this sense are the Havnen small tables, characterised by an opaque glass top and cylindrical base with leather upholstery, and the Veil small tables, composed of vertical glass plates joined together by the presence of metal buttons.

www.onirogroup.it

NEXT125 UNITES DESIGN AND ARCHITECTURE **WITH 'FIREPLACE'**

Next125 unites design and architecture with 'Fireplace', a collaboration with renowned architect Francis Kéré that highlights next125's commitment to sustainability, the environment and nature.

The new next125 precise kitchen cube is made of bronze-coloured mirror glass with natural stone worktops and offset by deep onyx black veneered oak units.

The bronze mirror finish on island adds sophistication with its reflective surface that transforms light. The minimalistic design belies its comprehensive functionality, accommodating a full suite of appliances and storage options.

Quality is defined by double veneer finishes and the rich depth of onyx colour on the back units, further emphasised with new height units and sleek vertical handles in coordinating Onyx Black for a seamless finish. The depth of the surface contrasts beautifully with the light reflecting bronze finish.

THE BRAND

next125 is Schüller's international premium brand. Attention to detail is synonymous with next125 kitchens. Inspired by the structures of the Bauhaus movement, next125 combines craftsmanship, technology, design and architecture at the highest level with the latest industrial manufacturing techniques. The result is exceptionally elegant kitchens offering excellent value for money for quality and design-conscious customers in the mid and upper market segments. The next125 products have already been awarded a number of design prizes, such as the German Design Award or the Red Dot Award.

Visit the website to find out more at www.next125.com

THE COMPANY

Based in Herrieden in southern Germany, Schüller Möbelwerk KG was founded in 1966 and has evolved over the last five decades

into a specialist for custom kitchens and 'Made in Germany' furniture. The company's portfolio comprises two product brands: the well-established quality brand Schüller and the elegant premium brand next125. Supported by the special materials from Systemo worktops, they cover a large segment of the market.

Around 170,000 kitchens are manufactured at the company site every year, which are sold in Germany and on international markets. With a turnover of 758.8 million euros, Schüller ranks among the top players in the industry. 'Typical Schüller' is not just about its extraordinary depth of production; it's also about working with partners from retail, a clear focus on sustainability and a deeply embedded responsibility as a company. Since 2003, Markus Schüller, Max Heller and Manfred Niederauer have led the family-run company in its second generation in line with the following mission statement: "Schüller: the home is the source of our inspiration, shared values and incentives."

BLANC D'IVOIRE

GRAPHENSTONE CALLS FOR INTERIOR DESIGNERS TO PROTECT THEIR PAINT SPECIFICATIONS, PARTICULARLY WITH ITS SPECIAL RANGE OF 'PURIFYING PAINTS'

Credit: Michelle Ogundehin for Graphenstone

Paint is a key design element for any designer. When used on several surfaces, including doors, detailing window frames, and even external decor, paint often accounts for a large proportion of an overall scheme.

With designers increasingly prioritising the sustainability and wellbeing of interior environments over usual design decisions such as colour and finish, it is essential to ensure that sustainable product specifications remain the same from the start of the project through to the end.

This is particularly important when the product plays a very technical role, as is the case with Graphenstone's purifying paint ranges. These paints actively help to 'purify' the air in the atmosphere by absorbing surrounding CO₂ as they cure (the majority in the first 30 days following application).

Decorators and subcontractors can often swap out specified products for those they believe to be 'similar' for ones that may appear cheaper, unaware of the impact this decision can have on elements such as material health, product circularity, cleaner air, and environmental protection.

Remember to cite Graphenstone's 'Cradle to Cradle' certification when drafting your design specification. This will ensure that the original intent and integrity of the designer's vision are maintained from the start to the end of the process.

With over 96 highly pigmented colours to choose from as part of its standard offer, Graphenstone also has just launched two exclusive new colour collection collaborations.

The first, is a unique range of 16 soothing colours developed with one of the most influential figures in British Interior Design, Michelle Ogundehin, and the second, sees a new range of Italian-inspired colours from interiors influencer Kaye Watson Smyth. Something to suit all interior design tastes.

Graphenstone will also launch a revolutionary new range of 'peel and stick' paint swatches, which are 100% recyclable, are made from 30% recycled materials, and use 94% less CO₂ than standard paint sample pots. The patches will be available exclusively through selected Brewers stores as part of a new distribution partnership, online via the Brewers website, and through Graphenstone's own website. (From October)

As part of its ongoing green business strategy, Graphenstone will now also plant a tree for every online order (including colour cards, and the new paint swatch patches), in partnership with Switch2Zero, a leading pioneer in sustainable technology solutions.

PAINT IT BLACK

LICK & M·A·C INTRODUCE LIMITED-EDITION PAINT: M·A·C BLACK 40

Lick and M·A·C have come together in a bold new collaboration to announce the launch of M·A·C Black 40 - a limited edition paint which celebrates black as the ultimate colour for self-expression.

For 40 years, M·A·C has empowered people to express themselves through makeup and colour, now they have joined forces with Lick to reframe an historically daunting colour in both beauty and interiors as inspiring and accessible. M·A·C Black 40 is a rich, matt jet black which is versatile and timeless - the one colour that fits all.

"M·A·C black 40 is the colour that everyone can have in their homes. It's truly versatile: it adds dimension

and contrast to any room, and will effortlessly accent your furniture and decor, whatever your style."

- Tash Bradley, Director of Interior Design and Colour Psychologist at Lick

Black is widely regarded as the colour of rebelliousness and nonconformity, and is commonly associated with words such as 'brave', 'bold' and 'daring'; this collaboration challenges this sentiment by highlighting four different ways to decorate with M·A·C Black 40:

- **Colour drenching:** "Colour drenching with black will help to create a very calm environment. If you have a small, north-facing room, this is a great option as black will absorb the shadows,

blue the edges of the space and add heaps of personality."

- **50/50 decorating:** "This monochrome effect will help to trick the eye and open up your space, especially if you use black on the bottom 50% of the room and a light neutral on the top 50%. The key thing to remember is to ensure everything in that lower 50% should also be black, including radiators and skirting boards."
- **Artistic pattern:** "Black pairs with every other colour, so you can have a bit of fun with it. Pattern play helps to open up a room and vertical stripes will elongate your space. Whatever your style, black is a truly versatile colour with lots of potential for creativity."

- **Accent colour:** “Every room can benefit from an accent of black to bring contrast and depth. The best way to do this is to use black to accentuate a feature, such as a staircase or fireplace, to draw your attention to the architectural highlights of your home.”

Tash Bradley, Director of Interior Design and Colour Psychologist at Lick said: “I’ve always been fascinated by the unique role black plays in our lives. In fashion, it represents elegance and sophistication, however, in the world of interiors, many view black as a colour that requires a level of bravery and boldness to decorate with. We are challenging that perception, showing that M·A·C Black 40 is the colour that everyone can have in their homes. This rich, matt hue absorbs all natural light, so if you’ve got a room that lacks sunlight, such as a bedroom or small space, lean into that by colour drenching your space to create a calming and cocooning effect.”

Developed through Lick’s industry-leading formulation process, M·A·C Black 40 has unrivalled depth of colour and is made with the highest-quality pigments. This limited edition hue is inspired by M·A·C’s iconic branding and the new M·A·Cximal Silky Matte Lipstick in the shade Caviar.

Dom Skinner, Director of Make-up Artistry at M·A·C said: “Celebrating M·A·C’s 40th year with Lick has been an honour, as black is at the heart of M·A·C’s DNA. What has been the most exciting part of this collaboration with Lick has been exploring the versatility of black. Showing how it can be harnessed in multiple ways from fierce rebellion to clean minimalist, from a simple sheer sweep to dynamic overdrawn intensity, black can go from cool to chic and proves why it’s a must for any trendsetter.”

Whether used as a dominant colour on your walls or as an accent colour on your woodwork, M·A·C Black 40 is the perfect choice for creating bold and timeless

spaces. This elegant and empowering black pairs seamlessly with Lick White O2 for a high-contrast monochromatic look or Lick White O5 for a softer, neutral scheme. M·A·C Black 40 is the new go-to for interiors lovers and beauty enthusiasts alike to celebrate and elevate their style identity.

For minimalists and maximalists alike, M·A·C Black 40 is the one colour that fits all.

DECOREX

The Interior Design Show for Professionals

6 - 9 OCTOBER 2024 | OLYMPIA EVENTS | LONDON

FIND OUT MORE

DISCOVER THE ART OF FLOORING WITH KATE WATSON SMYTH'S QUIRKY BLOOM COLLECTION

The latest designer collection you need on your radar, introducing Quirky Bloom, the flamboyant floral carpet exclusively designed for Alternative Flooring by the acclaimed tastemaker Kate Watson-Smyth.

The latest designer collection you need on your radar, introducing Quirky Bloom, the flamboyant floral carpet exclusively designed for Alternative Flooring by the acclaimed tastemaker Kate Watson-Smyth.

Quirky Bloom draws its essence from the vibrant spirit of the sixties - a period marked by freedom and innovation - infused with a dose of traditional Italian allure. This intriguing juxtaposition serves as a homage to these eras while showcasing the distinct cultures through design.

Discover Kate's inspiration behind the collection through our designer Q&A.

Kate, in three words, how would you best describe the Quirky Bloom collection?

Fun. Retro. Cool.

What were your biggest influences when designing the range?

I wanted something I hadn't seen before on carpets and I love that simple daisy shape. As a child, I had a daisy doll by Mary Quant and always loved that graphic motif. The nostalgic yet fresh appeal of

Quirky Bloom Polenta Rug with Anywhere Everest border from £511
Wool Iconic Herringstripe Laine Carpet from £87 m2

the daisy design inspired me to create something truly unique and memorable.

How can customers best style the carpet in their own home?

It's particularly good on a staircase as I deliberately designed it so the flowers were different shapes and in a random pattern, making it look like the flowers were tumbling down the stairs. But it's also great in any room of the house as it makes a real statement. I love that the colours that Alternative Flooring use are soft and muted, so you can use a really bold design, and it will still work in any room, whether modern or period. I also like it made into a rug with the edges done to either match or contrast the centre of the flower. It's a strong design but it's incredibly usable, allowing for versatile interior styling.

Do you see bolder carpets being a staple trend for 2024 and beyond?

Totally. We've had too many years of sensible, boring carpets, and now it's time to reclaim the floor as part of the decor. People are becoming more adventurous with their interior choices, and bold, expressive carpets are a perfect way to add personality and vibrancy to any space.

Any decorating advice and quick tips to give others looking to take on a project?

As I said in my book *Mad About The House*, you must ask yourself six questions: Who, what, when, where, why and how. Who is the room for? What are they doing in there and when? The needs of a couple with small kids are very different from those of a couple of child-free downsizers. Working out what a room is for - working, playing, sleeping, relaxing, eating - will help you with furniture choices and layout and knowing when they will be those things will help with lighting. Why are you redoing this room - making a list of what is wrong will help you understand how to put it right and focus on issues or storage and flow around the space. Where will you shop

Quirky Bloom Polenta Rug with Dolly Mixture Vibrant Teal Whipped Edge From £511

Quirky Bloom Tiramisu Carpet £134.30 m2

- this also talks to your budget. And How do you want to feel in the space - this is vital for colour choices. A bright emerald green that makes you feel buzzy and creative is no good for a bedroom where you need a shade that, for you, signifies relaxation and calm.

Quirky Bloom joins the ranks of Alternative's iconic Quirky collection, a line celebrated for its innovative patterned carpets, rugs and runners. Proudly designed and woven in Britain, the collection upholds the highest standards

of craftsmanship and quality, utilising locally sourced British wool. Described as 'manufacturing', Alternative combines expert craftsmanship with the latest manufacturing technology in action. Made from 80% British wool and 20% nylon, customers can feel rest assured that every single wool carpet is individually crafted with care. This not only highlights their commitment to sustainability, but their endeavour to always put people, the planet and their product first.

HIGH-END INTERIORS EVENT, DECOREX RETURNS TO OLYMPIA EVENTS THIS OCTOBER

The UK's highly anticipated celebration of interior design will return to Olympia Events from 6-9 October for Decorex's 46th edition.

Interior designers, buyers and specifiers will gather to discover the world of interior design through the latest trends, product launches, demonstrations and Talks Programme. Over 280 brands will showcase their newest products and curated collections of exquisite furniture, fabric, lighting, decorative craft, kitchen products, tiles, contemporary art, and more.

Explore Interior Design

Discover the handpicked line-up of this year's exhibitors and explore the latest offerings from brands at the show, including Heirlooms, Holmes Bespoke, Lilla Rugs, John Cullen X Hux, COAT Paints, V&A Enterprises, Clearwater Interiors, Hendel & Hendel, Officine Gullo and Alternative Flooring. This autumn Decorex will provide unbeatable interior inspiration, opportunities

to make connections with new and familiar faces and be the place to source a vast range of exciting new products.

Discover Unmissable Designer Collaborations

Together with design creative Ellen Merchant's colourful prints, Decorex is also collaborating with renowned design studio BradyWilliams who will be designing the show's iconic bar area in the centre of the show floor. Sustainable paint brand YesColours will transform the VIP lounge with their unique and colourful approach.

Watch the Talks Programme

The 2024 edition of Decorex will host a rich programme of talks by design industry professionals. Hear from over 85 expert speakers on a variety of specialist topics, ranging from sustainability to using AI in interior design. The renowned talks programme is the perfect opportunity to learn and be inspired by industry peers with in-depth knowledge and experience of the subjects explored. More sustainability talks and workshops will also be available in the Sustainability Lounge

in association with The Green Room, aimed to empower interiors brands to become more sustainable.

Register Now and Start the Countdown

For over 45 years, Decorex has connected interior design professionals with the very best in interiors; from designer collaborations, interactive workshops, showcases from up-and-coming artisans and an unmissable talks programme.

The countdown for Decorex 2024 is now on, with tickets available online for this year's unmissable design event. Register to connect with interior design professionals and the very best in interiors; from designer collaborations, interactive workshops, showcases from up-and-coming artisans and the highly anticipated Talks Programme.

AW24 BATHROOM TRENDS FROM GRANGE DESIGN

Grange Design, leading UK-based designers, manufacturers and specialist distributors for the bathroom industry prepare for autumn-winter by sharing the latest 2024 bathroom trends set to make an impact next season.

Predicting two major trends, Clive Griffiths, Manager at Grange Design shares his advice on the latest must-have bathroom products and how you can 'get the look' in your home this AW24.

REGENCY CORE:

Traditional bathrooms will be inspired by the market's ongoing love of maximalist décors and the perennial charm of the Regency era, which is bringing a range of bold patterns and darker colour palettes into the bathroom next season.

We're finding that character is being introduced through the fixtures and fittings, with designer brassware, over the top window dressings, and statement tiles coming out on top. Look out for ornate basin taps with strong curves, solid brass construction and classic capstan-style or ceramic handles. For a superior bathing experience, invest in a deck or floor-mounted bath/shower mixer and enjoy the convenience of combining your bath taps and hand-shower in one fixture.

Geometric patterns and signature design details will therefore become a cornerstone of the regency core bathroom this AW24, and also serve as a great way to elevate your plain white sanitaryware! From bold tiles in your favourite print or pattern through to white glazed basins, and freestanding bathtubs with prominent brassware, more is always

better when capturing the look of regency core in your bathroom.

Grange Design recommend Leonardo, a timeless brassware collection known for its classic Italian design and heritage style proportions. Discover the Leonardo Deck Mounted Bath Shower Mixer in Chrome, as pictured, which is available to buy direct and online for £1,048 including vat.

QUIET LUXURY:

At the other end of the design spectrum, the quiet luxury trend continues to promote wellness in the home with the contemporary bathroom zeroing in on simplicity. Helping to make everyday a spa day, next season will inspire a range of bathroom products that stand out for their level of restraint and 'non design' such as minimalist taps with slim levers, contemporary black accents and quality raw materials like stone and wood.

Ideal for a pared-back yet highly luxurious aesthetic, basin taps will be as simple as a solitary spout fitted to the wall or lone monobloc mixer with sleek contours to make a feature of the basin. The mood is very much 'quality over quantity', with a trend towards more atypical finishes such as matt black and polished metals to create that fundamental 'wow-factor' and signature design identity.

Grange Design recommend its Atlantic Collection, which is designed with ergonomics in mind to optimise the wash zone. Discover the Atlantic Single Lever Mono Basin Mixer Tap in Matt Black, as pictured, which is priced at £209 including vat, and available to buy direct and online.

PISTORE MARMI

Italian Marble, Artisan Soul

Together with you, we have been
creating tailor-made luxury
projects since 1960

LIGHT AND DARK CONTRAST AS THE MAIN CHARACTER IN THIS LUXURY BATHROOM

Marble is an excellent aesthetic choice for spaces like bathrooms. Selecting the right marble can transform this area into oasis of comfort, luxury, and well-being.

The design of this suggestive and modern bathroom is based on the **contrast between light and dark, glossy and opaque surfaces.**

The contrast between the two colours enhances the balance created by the veins of both marbles. The shower has a strong impact and appears to be the visual fulcrum, thanks to the use of Grand Antique marble with the book-matched technique. The **Grand Antique** is a brecciated black marble from France, suitable for interior spaces, that gives a distinctive and unique touch to each surface. It stands out for the strong contrast of its black background interspersed with plays of white veins.

Inside the shower, there is a niche made with **Arabescato Corchia** marble, an element that creates balance and harmony with the entire space. Arabescato Corchia, is a fine-grained brecciated marble

extracted in the Monte Corchia basin, in Tuscany (Italy). It has ovule motifs with grey-blue veins that allow it to be described as a breccia with a white background with irregular veins. Its characteristics make it ideal for enriching any environment.

Every detail of this bathroom is a testimony to “**Made in Italy**” excellence. In this room, **Italian craftsmanship** and **marble** come together to create a truly unique environment. The book-matched surface is an ode to the harmony between human creativity and the beauty of nature.

Our vision and experience are at your service.

In **Pistore Marmi**, we merge artisan know-how with creativity and technological innovation, creating unique and exclusive design objects and tailor-made projects that enhance the properties and characteristics of natural and precious stones. Alongside the **artisanal approach**, we offer a **complete service for architects and interior designers**, ranging from consultancy with a problem-solving approach to support in design, selection of the most suitable marble, tailor-made creation of finished products, and assistance during the installation phase.

BATHE IN ROMANTICISM WITH AN ELEVATED SENSORY BATHROOM EXPERIENCE

Following the success of their debut AW23 bathroom collection and the launch of a one-of-a-kind, limited-edition, hand-painted bath, designed by eminent artist Emily Forgot - Clearwater Interiors announce their new AW24 bathroom collection, officially launching this October at Decorex, Olympia London.

The new collection sees an injection of four new colourways into the existing eco-luxe bathroom collection from Clearwater Interiors. The new colourways - Soft Pink, Navy Blue, Military Green and Copper Brown - are available across basins, baths, furniture and stone wall panels. All Clearwater Interiors stone wall panels are fully customisable, with the ability to cut to size from the standard measurements available to order.

As a true celebration of the evolution of the bathroom, the collection showcases creativity over compliance that's never been seen before in the bathroom space. Gone is quiet luxury, the elevated bathroom now heralds a new, distinctive and artful age. The sunbaked Soft Pink and rich opulent Navy Blue couple together to create an effortless energy that elevates, rejuvenates and transports.

Resist the minimalist urge with the eccentric touches of dual-toned baths, brushed brassware and a waterfall shower. Bathe in romanticism by layering colour and texture against the elegant curvature of an engineered stone bath. The new collection creates an interesting interplay between the transformative power of colour - in

both design and wellbeing - and the craftsmanship and sophistication of Clearwater Interiors' luxury baths, furniture and brassware. With the captivating presence of The Clement Bath in Soft Pink and Matt White, accentuate the natural eccentricity of the sensory bathroom experience.

Interior Stylist, Marianne Cotterill says of the collection; "Eccentric to me means mixing styles, patterns, influences and periods. I love the Clearwater Interiors

bath colour, a beautiful soft pink that flows into fabric perfectly. Mixing contemporary style with the traditional, but with a cheeky element, really sang. It's timeless."

Andy Oakman, Head of Clearwater Interiors and Lead Design Consultant adds; "After an incredible response to our launch last year, we received insightful feedback from the A&D community expressing the want for more colour. So that's exactly what we're doing. With the injection of colour through our AW24 collection, we're elevating the bathroom space by encouraging eccentric exploration to create spaces that are curated, bespoke and a treat to the senses. The collection marks a crucial step in our ultimate goal to be a distinctive bathroom brand; delivering what interior designers, architects and homeowners are coveting in their bathroom projects and spaces."

THE TRANSFORMATIVE

POWER
OF COLOUR

NEOLITH ANNOUNCED AS FINALIST IN THE **SBID INTERNATIONAL DESIGN AWARDS 2024**

Neolith is delighted to announce that the brand's Calacatta Roma sintered stone surface is a finalist in the Surfaces & Finishes category of the prestigious Society of British and International Interior Design (SBID) International Design Awards.

"Neolith is delighted to be announced as a finalist for the SBID Award. This recognition underscores our company's unwavering commitment to innovation and sustainability. Our dedication to producing high-quality, environmentally friendly surfaces empowers interior designers to realize their

most ambitious projects. We are proud to be at the forefront of the industry, continuously pushing the boundaries of design while providing exceptional materials to our clients.", comments Ross Stewart, UK Senior Sales Manager for Neolith UK.

INSPIRED BY ANCIENT ROME

Calacatta Roma is a new finish that fuses elegance and timeless beauty. Recently honoured by Architectural Digest in its prestigious 2024 Great Design Award, Calacatta Roma is inspired by the splendour of Ancient Rome's Italian Carrara marble, combining classic elegance with modern sophistication. Its ochre and grey veins stand out against the white background, providing sobriety and distinction. It is an ideal choice for spaces that require a touch of luxury and refinement, while maintaining durability and functionality.

SINTERED STONE

Crafted through an ingenious process of extreme heat and pressure, Neolith's surfaces withstand daily wear and tear. Highly resistant to scratches, heat, stains, and UV

radiation, sintered stone is an enduring material retaining its sleek appearance for generations. Its robust nature ensures all manner of applications, from shower enclosures to worktops, remain beautiful, even under the most demanding circumstances. In today's fast-paced world, Neolith offers effortless maintenance. Non-porous and hygienic, it needs only mild soap and water for cleaning, reducing upkeep time for homeowners.

Thanks to its high-performance design and functionality, Neolith is suitable to numerous application types including in kitchens and bathrooms, interior cladding, and bespoke furnishings for indoor and outdoor use in hotel, hospitality, commercial and residential settings. Neolith surfaces also have the lowest crystalline silica content range in the market, below 9%, as it doesn't add crystalline silica sand as a raw material.

As part of its sustainability dedication, Neolith was the first

company in the materials industry to achieve carbon neutrality, having offset its main sources of emissions in 2019. Besides that, Neolith recycles the totality of the industrial water used and 100% of the electricity used during the production process comes from renewable sources.

Sintered stone offers a vast array of colours and textures, appealing to both designers and homeowners. Whether replicating the allure of marble, the ruggedness of concrete, the warmth of wood, or the sophistication of granite, it effortlessly complements any aesthetic vision.

The SBID Awards have firmly established themselves as one of the most prestigious recognitions of design excellence in the interior design industry. Winners will be awarded the crystal SBID International Design Awards 2024 trophy at the official ceremony, held at the Royal Lancaster London.

For more information and to cast your vote, please visit www.sbidawards.com
Voting closes at 5pm (BST) on Wednesday 11th September 2024.

You can follow the latest news from Neolith at www.neolith.com

INTRODUCING EUROFASE LIGHTING COLLECTION

Quintiesse are delighted to partner with Eurofase, a premium and well respected Canadian brand.

Eurofase is more than just a lighting company; they are a distinguished leader in the lighting industry and renowned for their commitment to modernist and innovative designs. Their Canadian heritage sets them apart in the industry, making them the preferred choice for those who seek the best in luxury lighting solutions.

Quintiesse is the premium lighting brand from the Elstead Lighting Group and this new lighting collection from Eurofase helps to elevate the offering that Quintiesse bring to the Designer and Architectural market that require 240V electrics.

Featured (in the advert opposite) is the Seraph chandelier. The compelling display of form and motion has a wingspan of one metre and creates magnificent arrangements of linear light which is available in matte black or matte gold.

Another magnificent range is the Kepler pendants. Solid blocks of alabaster stone have been cored and turned into spheres, the naturally occurring deposits of iron oxides in the soft calcite stone leave trails of clouding and veining. As a result, each individual shade is a unique beauty to behold. Available in small and medium single pendants, as well as the 7 light cluster pendant.

Eurofase are a creative and forward thinking brand, bringing quality and innovative LED products that symbolise the fusion of lifestyle, luxury and timelessness. See for yourself some of their finest products as they are launched at several exhibitions this autumn, including: Maison et Objet - Paris, Decorex - London and Warsaw Home, Poland.

See these products and much more on the new quintiesse website.

WHERE LIGHTING AND DESIGN UNITE THE UK'S ONLY DEDICATED EXHIBITION FOR LIGHTING SPECIFICATION 20 & 21 NOVEMBER 2024

Held at the Business Design Centre in Islington, London, LiGHT 24 is the UK's only trade show dedicated to high-end lighting specification.

Held annually, over two-days in November it attracts designers and specifiers from all areas of the industry looking to be inspired, educated, and grow their professional network.

Having attracted almost 5,000 visitors in 2023 - architects, interior designers, lighting designers, engineers, and specifiers head to LiGHT in their thousands to see the very latest product innovations and launches from 100s of exhibiting architectural and decorative lighting brands.

Run by [d]arc media - the leading media company in lighting design - the show also features the highly regarded [d]arc thoughts talks programme. Moderated by editors from the leading lighting design

magazines arc and darc, as well as guest moderators, the talks delve deeper into the latest topics and trends affecting lighting and design - whether that's looking at circular economy and sustainability, designing for wellness, or diversity in design.

LiGHT also provides endless opportunities for visitors to make new connections, whether that's through the late-night drinks

party, networking brunch, or while working in the dedicated co-working space, or re-energising in the Associations Lounge.

The 2024 edition of the show will take place on 20 and 21 November and is completely free to attend.

LiGHT24

For more information, including an exhibitor list and talks programme schedule, head to:

ILLUMINATE YOUR SPACE WITH HIGH END BRITISH MADE LUMINAIRES

At P&A Projects, we take pride in and dedication to the craftsmanship of our luminaires, which are all designed and manufactured here in the UK.

Over the last 20 years, we've supplied lighting for various projects, from residential to large scale commercial, and this dedication to providing high end British made luminaires remains unwavered to this day.

We understand that light is an essential element of life which influences architecture by defining volumes, visual appeal and textures. We want to go so much further by fostering sensations and emotions, so that lighting becomes a dialogue between people and whatever happens in the spaces they inhabit.

This is why we take pride in offering the ability to personalise all lighting products to your needs, whether this is in adjusting the lumen output, paint finish or optics, and all our products are meticulously manufactured to order.

The TL by P&A is a collection of architectural slimline, tubular downlights, designed and manufactured in the UK by P&A. With their eye-catching minimalist design, the TL collection is perfect for illuminating your space. All fittings come with fine texture powder coated aluminium housing, available in a range of finishes. The collection is available in six sizes, and both ceiling and pendant varieties. The lighting technology in the collection is adapted for both home and public interiors.

The GL pendant and feature luminaire range, offers a timeless

design that complements both homes and offices. These versatile luminaires with their diffused round shade, made from polycarbonate shades and spun aluminium, give an ambient glow. Available in a wide range of sizes and finishes, its clean unobtrusive design makes them perfect for any space, adding a touch of sophistication without overwhelming the décor.

The HALO pendant is a contemporary architectural fitting, subtly suspended with adjustable suspension wires, that gives the illusion of the luminaire floating in mid-air. The luminaire is the perfect fitting to give your home a contemporary minimalist look, with its powder coated aluminium housing, available in a range of colours and finishes.

www.pandaprojects.co.uk

CONTROLUCE / SCRIGNO

DESIGN BY EGIDIO PANZERA

"Controluce was born from a reflection, together with Scrigno, on the relationship between architecture and light. If the wall, for Scrigno, has become an opportunity to connect and create spaces, interpreting the archetype of the threshold with light has meant for me, repositing the image of drafts of light passing through the wall around a semi-closed door. The theme of backlighting has been investigated by many architects in the past to create emotional, poetic, ascetic spaces. I think of the Unesco Meditation Space, the Chapel of Ronchamp, or the Duomo Vecchio in Brescia. For Scrigno's doors, the light would not only have to illuminate, but to be an emotional narrative, to place itself between wall and doorway".

Egidio Panzera

Developed by Scrigno, a leading company in opening solutions, and designed by Egidio Panzera, Controluce represents a new way of interpreting the transition between different living spaces with an unprecedented use of light that is declined in its relationship with shadow, producing a striking and impressive lighting frame around the door.

Controluce is a new way of experiencing the threshold where door and light become furnishing elements: the Scrigno flush-mounted hinged door, embellished with LEDs in natural or warm light, is transformed, according to architect Panzera's design, into a scenographic and evocative concept ideal for furnishing the home as well as business, museum and hospitality environments.

Illuminating lines cross the wall for a visual effect that enhances the exclusive character of the location, while when the light is off the frame blends seamlessly into the wall.

Wide is the possibility of customizing the light contours, depending on the presence or absence of the transom, for total design and stylistic freedom. In the version with a crossbeam, the light can follow the contour of the door in its entirety, or the double vertical profile - hinge or lock side - and horizontal; in the version without a crossbeam, it is possible to illuminate the two vertical lines; finally, both declinations allow segments of light to cross the single side, hinge or lock, for the benefit of a multiplicity of customizable aesthetic scenarios.

Controluce is an original solution, adaptable to any wall thickness, available in versions with or without a transom, for heights up to H 2700 and H 3000, respectively. Consisting of a 55 mm thick door, it can be customized with primer finishes, in RAL color or

in a sought-after choice of wood essences. Equipped with 3 or 4 hinges, depending on the height, the door is accessorized with a magnetic lock as standard.

The light source that characterizes Controluce not only frames the door but also elevates the gap between rooms, enhancing their architecture and creating light scenarios aimed at arousing ever-changing emotions.

TOUCH

IRONMONGERY LTD

www.atouhofbrass.co.uk

210 Fulham Road, Chelsea London SW10 9PJ

CELEBRATING 40 YEARS

One of London's leading Architectural Ironmongers

Originally called "A Touch of Brass", TOUCH changed their name in 2003 in reaction to advancing market changes in architectural Ironmongery to reflect the broader range of products and finishes that they sell.

In fact today Touch supply 20 different finishes including Brass, Satin Brass, Polished Chrome, Polished Nickel, Satin Nickel, Copper, BMA, Antique Brass, Black, Pewter, Ceramic, leather, Stainless Steel, Satin Stainless Steel, Gun Metal & 4 different shades of Bronze and the list keeps growing. Whatever finish you require, Touch can help you get the right look.

Touch occupy their recently refurbished showroom at 210 Fulham Road, Chelsea, where they stock and display a vast range of their 5,000 products. With a customer base including Architects, Interior Designers, Builders and private Individuals who are interested in the quality end of the Ironmongery market, the company also have a healthy export market to all corners of the world, namely the Middle East, Europe and the Americas.

Touch Ironmongery's owner and founder, Bill Benham, has 42 years' experience in the Ironmongery trade, as does his colleague Jim Haselup. Saleem Qureshi is the newest member of our team and has 21 years' experience, meaning their knowledge is unrivalled in this industry.

The range of products supplied by Touch date from circa 1640 French (Louise XIV) and cover all subsequent periods (Georgian, Edwardian & Victorian), Art Deco and contemporary pieces also make up the product ranges.

Touch showcases the very best of British manufacturing; the best ranges are still produced in the Midlands by craftsmen in factories dating back 200 years or more.

Touch Ironmongery have recently become suppliers for **Designer Doorware (Australia)** Who have beautiful products with a cutting edge design Metal, Wood and concrete. We also have the exclusive rights to sell the **Olaria (Barcelona)** range in the UK.

Olaria make all our bespoke products, they have incredible levels of workmanship.

Touch also sell European manufactured goods which are considered to be of a very good quality.

With trends continuously evolving new and innovative products are constantly under development.

Touch understand that keeping up with the fashion-shifts is imperative in order to provide every customer with the best solution for their requirements.

Ironmongery can be a difficult and complicated aspect of a building project, as a result Touch aim to take this awkward aspect and make it user friendly and clear to understand by offering an on-site service where they carry out a detailed door by door, window by window, room by room Ironmongery schedule, highlighting all requirements and identifying all requirements.

Restoration is a large part of the business Touch will undertake complete Ironmongery refurbishment projects, and can restore old paint covered door furniture to their former glory, looking as good as new again at a fraction of the cost to replace.

For more information about Touch Ironmongery or to arrange a showroom visit please call 0207 351 2255 or alternatively visit www.atouhofbrass.co.uk

BRITISH & EUROPEAN MANUFACTURERS SUPPLYING THE FINEST QUALITY IRONMONGERY

Touch combine traditional skills with modern manufacturing techniques to produce the most beautiful, quality fittings, built to stand the test of time.

As well as specialist bespoke items, Touch supply over 1000 products, available in 23 different finishes to furnish high end residential and commercial properties, royal palaces, government houses, historic castles and stately homes.

BUILDING A BRIGHTER FUTURE **WITH VICAIMA**

As we stand on the brink of potentially a major re-focus for the construction sector and a new emphasis upon delivering living, learning, leisure and workspace fit for future generations and designed to meet ever-changing aspirations, we must not lose sight of the need for maintaining quality, regulatory and environmental standards.

In the realm of fire safety, Vicaima has established itself as a leading manufacturer of timber doors and door kits, setting a benchmark in the industry with comprehensive certification and third-party accreditation. With a commitment to design quality and performance, Vicaima has consistently demonstrated its ability to produce doors that not only meet the needs of current living, but forever look to the future. With an unwavering attention to sustainability goals, Vicaima products integrate seamlessly with the needs of the built environment.

LASTING GOOD LOOKS

A perfect example of how Vicaima combine tough products with real room appeal is in the use of the recently expanded Dekordor HD Colours range. In a world where skills and labour shortages on site are a constant concern, the argument for using factory assembled door kits and pre-finished products is self-evident. HD Colours presents a high resistance, durable continuous pressure laminate that affords long lasting good looks, with a choice of 14 on-trend colour options. Already extensively used for student accommodation, education and commercial environments, HD Colours has a proven track record, making it a worthy alternative to the ever-present and widely used white door and frame. Fresh for Summer 2024 has been the introduction of four new finishes, including Twilight Blue, Granite Grey, Green Mist and Light Grey. These neutral colours add an ideal subtle touch for rooms. Designed for a brighter future in living and workspaces.

SUSTAINABILITY / ESG

The Vicaima Group is committed, within the framework of the ESG (Environment, Social and Corporate Governance) criteria, to making its contribution towards achieving the Sustainable Development Goals (SDGs) defined by the United Nations.

Vicaima acts with the responsibility of providing the market with solutions that have a reduced impact on the environment, are accessible to all and ensure people's safety and well-being and contributing to a more inclusive way of living.

Being sustainable in today's timber doors market, is not just about having all your products covered under FSC certification. While that is the case with Vicaima, their aims and aspirations go well beyond ticking obligatory boxes. As the saying goes, actions speak louder than words and so it is a measure of the importance Vicaima sets in its ESG obligations that it has laid out the Facts and Figures of its path through sustainable.

Most recently, Vicaima announced that Sustainable Production and Consumption was one of its major areas of action, working actively to extend the life cycle of its solutions, by optimising the entire value chain and minimising waste.

The Vicaima Group's approach to this issue has produced concrete and measurable results. In 2023, a total of 4,139 tonnes of waste was generated, representing a 15% decrease compared to the previous year. From this volume, of which wood waste represents a significant part, 96% was valorised through reuse in new products, recycling or the production of thermal energy.

During all operations, the different waste circuits are continuously monitored and categorised, making it possible to optimise the separation and forwarding of waste for recovery via the various duly accredited waste partners or operators, with the aim of being reused and reintroduced into the value chain, thereby avoiding the final destination to be landfill.

In this context, priority is given to progressively include in Vicaima's manufactured products or those that it integrates throughout the supply chain, renewable materials, high percentage recycled materials or wood-based products made from fast-growing natural fibres, rather than virgin raw materials.

As we look to the future, Vicaima continues not only to lead the way in product performance, but also to ensure this goes hand in hand with design and innovation, for a safe and sustainable environment.

To find out more visit www.vicaima.com or email technical@vicaima.com

TED TODD LAUNCHES CONTEMPORARY SEAMLESS FLOOR COLLECTION

Hardwood flooring specialist Ted Todd's new collection, Residence, features 10 elegant and refined engineered wood floors, and is the first new collection the brand has added to its portfolio for ten years.

Having designed and developed the very best wood flooring over the last 30 years, Residence embodies the culmination of Ted Todd's expertise and innovation.

A Ted Todd floor is a floor for life with unrivalled high quality, attention to detail and superior specifications; they are proudly the leading provider of engineered and solid wood floors in the UK for homes and commercial spaces.

Residence has been designed to represent contemporary luxury, suited to chic, modern interiors and is available in three designs, plank, herringbone and chevron. These can be purposefully combined to create a variety of interchangeable, interesting laying patterns for a truly bespoke floor.

Tones vary from Kinnerton a cool light grey, Ebury, a warm mid-tone brown, to Wilton a cool deep brown, and Bloomfield a rich chocolate tone.

Residence has been created with exceptional quality; constructed from prime grade FSC-certified European oak with a clean uniform appearance, consistent in colour, straight grain and seamless bevel free edges with a 4mm wear layer and square shoulder.

Ted Todd's innovative Absolute Matt Lacquer offers a super matt sheen with high levels of durability finished with lightly brushed

surfaces that subtly highlight the wood grain.

Robert Walsh, founder and CEO of Ted Todd Group, commented on the launch: "We're incredibly proud to launch Residence to our portfolio of now eleven collections at Ted Todd. Residence is our most exciting launch in recent years, following 30 years of designing and developing the very best flooring, embodying the culmination of our expertise and innovation.

"Following our launch into the USA last year, this is shaping up a fantastic 30th year for us. The innovation, style and commitment to high-quality, high-end flooring has kept us at the forefront of the global hardwood flooring market. We have a very exciting year ahead

and look forward to working closely with our retail and commercial partners to continue this success."

All floors include a 30 year warranty and are available to view online, at Ted Todd retailers or the London and Cheshire design centres.

3 DAYS, 300+ BRANDS AND 30% BIGGER: WHY YOU NEED TO VISIT THE FLOORING SHOW THIS SEPTEMBER

Earlier this year The Flooring Show announced its expansion into Hall Q, a decision that sees the show grow by 30%. Such growth is testament to the strength of the flooring industry and cements the show as the UK's largest and market leading flooring trade event.

Open to retailers, contractors, fitters, architects, interior designers, specifiers, project managers, the list goes on... this is an unmissable event for anyone within the flooring industry. This year's dates are set for 15-17th September, at its much-loved home of the Harrogate Convention Centre, and with over 300 brands exhibiting, The Flooring Show 2024 is the ultimate destination for flooring professionals.

Find out more about what the show has to offer:

2024 EXHIBITOR LINE UP: The Flooring Show's exhibitors span the breadth of the flooring industry, attracting manufacturers and suppliers of carpet, laminate, LVT, wood, vinyl, cork, grass, SPC, as well as underlay, adhesives, software, machinery and tools. The names that visitors know and love will be returning to support the three-day show, bringing with them new ranges across all types of flooring for the contract and retail markets. Suppliers include Abingdon Flooring, Adam Carpets, Associated Weavers, Ball & Young, Bostik, Cavalier Carpets, Cormar, COREtec Flooring, Kellars, Furlong Flooring, F Ball & Co, Hugh Mackay, Interfloor, Lifestyle, Likewise, Penthouse Carpets, Tarkett, Westex, Victoria Carpets & Design Floors, to name just a few.

Alongside the big names returning to the show, there are plenty of new names joining

us this year including Floormart, Bjelin, T-Build Floors, Evolve Flooring, Fablon Fine Carpets & Rugs, Juvern, Peri UK, Floor Master, Tuftco, Rinos, Alsa Flooring, to name just a handful.

DESIGN SPOTLIGHT: For years, The Flooring Show has attracted premium flooring brands, with Harrogate ranked the most exclusive place to live in Yorkshire and ranked in the top 25% most expensive cities in the world. Located in the newly accessed Hall Q, the Design Spotlight has been launched in response to the demand from architects, interior designers, property developers, and specifiers in search of the most unique, design-oriented residential and contract flooring solutions on the market.

Event Director, Alex Butler, says "The Design Spotlight is a feature we've wanted to introduce for a couple of years now, and the expansion into Hall Q allows us to do just that. We want architects and interior designers to know that The Flooring Show caters to them as much as it does to our contractors and fitters."

FITTER OF THE YEAR: This year NICF's 'Fitter Of The Year Competition' returns with a focus on carpet and the competition will take place over the Sunday and Monday of the show. The winner will be announced at 4pm on Monday 16th and receives a cheque for £2000, a trophy and some great prizes including a selection of tools, and one year's free NICF Master Fitter membership.

WOOL TRENDS CENTRE: The Wool Trends Centre returns this September. Located in Hall C, meet with brands that put wool carpet

at the forefront, including Westex Carpets, Adam Carpets, British Wool, Cavalier Carpets, Brintons, Axminster Carpets, Brockway Carpets, Penthouse Carpets, and Ulster Carpets.

DEMO ZONE: As always, the Demo Zone, run by the Flooring Industry Training Association (FITA) and supported by the Contract Flooring Association (CFA) and National Institute of Carpet & Floorlayers (NICF) is back in Hall B to impart more wisdom on the latest techniques and insights into working with the newest products on the market, via their live demonstrations across the three days of the show.

REGISTRATION: Registration for The Flooring Show is now open, meaning you can secure your COMPLIMENTARY passes by heading to www.theflooringshow.com and complete the short form. This pass will give you fast track access to the show and let you skip the queue on arrival.

SHOW ESSENTIALS:

Dates: Sunday 15 - Tuesday 17 September 2024

Opening hours: Sunday 9:30-17:30 | Monday 9:30-17:30 | Tuesday 9:30-15:00

Venue: Harrogate Convention Centre, King's Rd, Harrogate, HG1 5LA

Entry: The Flooring Show is a trade-only event and is free for industry professionals.

A TIMBER SOLUTION FOR EVERY SURFACE HAWWOODS LAUNCHES LATEST WOODBOOK

Experts in market-leading timber-based solutions for any surface, Havwoods has launched its new Woodbook. With new products being offered across a range of different collections for floors, walls and ceilings, Havwoods is continuing to prioritise the demands of its customers with innovative designs suitable for every project.

New Hushwood Flute colours -

The wood panelling market has drastically evolved and grown as timber wall coverings offer longevity, style and texture. Designed to improve interior aesthetics as well as sound quality, the Hushwood Flute collection has been expanded to offer 8 new colours. From the Scandi-inspired Natural Oak and White on White to the daring Indigo and Forest, each panel is lightweight and easy to install.

New additions to Henley Collection

- Combining texture and tone, the Henley Collection creates an

authentic ambience and provides a hard-wearing solution for homes and commercial spaces. Havwoods has expanded this already popular collection to launch 4 new colours - Alba, Lucia, Rocca and Torri - in 200mm and 300mm widths. In addition, 8 new colours are now available to order in the 200mm width.

New Amalgama Boards in Venture Plank -

Havwoods' Venture Plank

collection is a quality, high-performance, engineered board characterised by a comprehensive spectrum of interesting shades and a smooth finish. Offering a multi-layered engineered European Oak colourway is available in 4 patterns - from the on-trend Herringbone and Chevron to the timeless 180mm Prime and 242mm Character boards.

SELECTING THE RIGHT STONE

With so many types, colours and finishes of natural stone to choose from, it helps to have a guiding hand through the selection process. Below are some useful tips in navigating the beautiful world of natural stone.

1. Start out by making an initial selection of three or four “possibles” and ask for indicative samples.
2. Check out the Environmental and Ethical credentials of each stone:
 - a. Ask to see the Environmental Product Declaration (EPD), a document detailing the environmental performance of the stone over its lifetime.
 - b. Alternatively, ask the quarry for ISO 14001 - Environmental Management System or their EU Eco -Management and Audit Scheme.
 - c. For Ethical Sourcing BES 6001 Framework is the current benchmark.
 - d. As part of their planning application UK quarries should also have an environmental impact statement you can ask to read.

Note: The Stone Federation of

Great Britain operates a list of UK stones supported by EPDs and has an Ethical Stone register for UK operators. Neither of these is exhaustive but will give you an idea of what to look for.

3. **Test data.** The Declaration of Performance, supplied in accordance with BSEN 1469 (cladding), BSEN 12058 (floor slabs), BSEN 12057 (tiling), BSEN 1341 (paving), presents common test data to allow comparison between stones.
 - a. Use a stone expert to assist in assessing the stones likely performance.
 - b. Also look at historical use in similar applications, particularly when assessing durability.
 - c. Further test the stone if the design requires it, or there is no history of use, or the environment is wet or damp - pools and wet rooms.

Note: Remember, it is the designer’s responsibility to confirm the stone is fit for the intended purpose.

4. **Range Sample:** Approximately 600x600mm is a decent size. The supplier should make sure samples demonstrate all the following features of the stone:
 - a. Variations in colour.
 - b. Variations in texture.
 - c. Veining.
 - d. Shell content.
 - e. Grain size.
 - f. The use of patching, fillers or other products to fill natural holes, cracks or faults within the stone.

5. **Quarry or factory visit:** As an alternative to range samples, you may be invited on a trip to a factory or quarry abroad or to the suppliers UK yard.
 - a. Look at the first, middle and last slab in any block. Natural veining and colour will move and change.
 - b. Be clear what is acceptable and what is not.
 - c. Mark the slabs, take photographs and record the findings.
 - d. Ask for samples of the selection. Three sets - one for site, one for the design office and one for the factory - to compare with production when it arrives on site.

Note: Just be aware that if you reject substantial amounts of the slab then the cost of the supply will rise, and production time will increase. Why? Because the supplier must quarry more blocks to meet a narrower selection.

If the price exceeds the budget you may have to move on to one of the other initial choices or accept nature as it is.

More information on selecting the right stone including understanding test data, assistance with the selection process, costs, dry lays and specification contact Robert Merry info@stoneconsultants.co.uk | m: **07771997621**

RHS MEDAL WINNING ARTIST INTRODUCES HER PHOTOGRAPHIC ART PRINTS FOR THE HOME

Juliette Scott is a recent recipient of a RHS Gold Medal at the 2024 RHS Botanical Art and Photography Show. Her limited edition photographic prints are distinctive and captivating works of art which will enhance and complement interior spaces.

Juliette's work is inspired by nature and the seasons around her in rural Northumberland, and also by intriguing architectural elements found on trips abroad. Her art captures her love of colour and texture nurtured over time through her previous jobs in art, antiques and interior design.

Her recent medal winning artwork, 'Tulips - Never Too Old to Dance' is a 'representational' collection, showcasing accurate studies of beautiful yet withered tulips at the end of their life cycle. The backbone to this series being a fascination with the dramatic colour changes in the decayed petals highlighted by the colour swatches included. "Nature is often fleeting so I like to give people the chance to dwell on what I have witnessed or felt, through my art," Juliette explains.

Generally Juliette is less concerned with making images which replicate exactly what she is seeing, instead

preferring to use what she has observed as a source to develop her compositions. Embracing different approaches to photography including intentional camera movement, in-camera multiple exposures, as well as conventional techniques, Juliette also loves to explore blending and layers during post-processing, often producing near abstract results.

Inspiration certainly comes from travel and an ongoing fascination with Venice where Juliette is especially drawn to the city's wide array of textures and reflections, combining the complex surfaces unique to the city and using them in unexpected ways. Marble seen on a church column might be reworked to create the sky in a Venetian cityscape, for example. Juliette has even incorporated the traditional art of paper marbling into her work and has produced a series of works which successfully combine her own marbled papers with her photography.

Passionate about hand-finishing select prints with metal leaf, Juliette explains that this process can add an extra layer of texture and shine, as well as creating a truly bespoke image.

Juliette Scott Photography produces small edition runs of each unframed printed image, offering something for every colour lover. Juliette is thrilled to have her works hanging in homes, offices and galleries internationally. She always welcomes commissions and collaborations.

POSTERLOUNGE: ELEVATE YOUR INTERIORS WITH INSPIRING ART

In the world of luxury interior design, art is not merely a decorative element; it's a statement.

At Posterlounge, we understand the power of art to transform spaces, and we bring this vision to life with our extensive collection of over 80,000 designs. Whether you are designing a boutique hotel, a chic restaurant, or a modern office, Posterlounge offers a curated selection that caters to every aesthetic.

What makes Posterlounge stand out is our commitment to quality, sustainability, and craftsmanship. Each piece in our collection is crafted in-house at our facility in Leipzig, Germany. This hands-on approach allows us to maintain the highest standards, ensuring that every print is not only beautiful but also durable and environmentally conscious. We use sustainably sourced materials and environmentally friendly printing processes, minimizing our carbon footprint while delivering top-tier art.

Our portfolio is a treasure trove of possibilities, featuring everything from the works of old masters to contemporary photography and illustrations. Whether you're looking for a classic Monet for a serene spa setting, a striking acrylic print for a modern lobby, or a vibrant foam board print for a child-friendly space, Posterlounge has the perfect piece to complement your design vision.

Beyond the variety and quality of our products, Posterlounge offers personalized service that caters to the unique needs of our business clients. Our team is dedicated to guiding you through the selection process, helping you choose the ideal materials, sizes, and formats for your project. From custom framing to tailored solutions for large-scale projects, we ensure that every detail aligns with your design goals.

For those in the hospitality and design sectors looking to add a personal, artistic touch to their spaces, Posterlounge is more than a supplier - it's a partner in creating interiors that inspire and impress. Discover the art of design with Posterlounge and let us help you bring your creative vision to life.

GIVE YOUR BEDROOM A REFRESH WITH GREECE-INSPIRED ARTWORK

NEW GREEK COLLECTION OF ARTWORK JUST LAUNCHED

Adding a splash of Greek sunshine to your bedroom decor couldn't be easier with our charming vintage-style Greek art posters and prints. These state-of-the-art Giclée prints revitalise your living space with their lively colour palette and artistic allure. They are also eco-friendly and printed regionally using water-based inks on sustainably sourced FSC-certified wood and paper. Whether you opt for a framed or unframed version, you're guaranteed a fine art piece that can last 100+ years. Immerse your home in the warmth of a Mediterranean summer today with exquisite Greek prints in various sizes to perfectly complement your wall space.

There is no better way to infuse the warmth of Mediterranean charm into your bedroom than with Joanne Short's Greece Artwork. Bringing alive the magic of Saint Spyridon in Corfu Town, Greece, this open-edition art print vividly captures the allure of the warm colours. Framed and ready to hang, this archival-quality print radiates lasting beauty, showcasing Joanne Short's artistry. The artwork offers a choice of picture-perfect framing with white, black, or neutral wood options, adding an art gallery-quality touch to your personal space.

'Beachside Bliss in Corfu, Greece' art poster print by famed artist John Dyer embodies the essence of tranquil vacation vibes and enlivens any bedroom setup. Portraying the radiant play of colours in Corfu, this

artwork, available in four popular sizes, perfectly balances vintage charm with contemporary artistry.

Continuing with our exploration of bedroom decor, we introduce 'Sun-Drenched Days, Faliraki, Corfu Town, Greece', a stunning original 24x18 inch acrylic on canvas by renowned British Artist John Dyer. It beautifully captures the vibrant colour and joy of the Greek coast, offering serenity and a touch of holiday charm to your bedroom's aesthetics. This life-affirming original painting, framed and ready to adorn your walls, invites Greece's sun-drenched, idyllic landscapes into your space, serving as an inspirational slice of nature in your tranquil sanctuary.

To elevate your bedroom aesthetic, we are thrilled to present our Greece Artwork Wall Art Poster Print, 'Strolling Past Corfu Cats, Agios Gordios, Greece' by artist John Dyer. Infused with the holiday vibes of Greece, this print will transport you to the picturesque island of Corfu every time you glance at it. Crafted using state-of-the-art Giclée printing with century-long archival inks and premium heavy fine art paper, our sustainably sourced print guarantees

quality and eco-consciousness. This unique piece, a perfect blend of vintage style and modern aesthetic, is exclusively available in four popular sizes from The John Dyer Gallery.

In conclusion, The John Dyer Gallery offers a range of exceptional artworks and prints, highlighting the celebrated work of British artists John Dyer, Joanne Short, and Ted Dyer. Unique in design and outstanding in quality, our collection beautifully showcases the beauty of the landscape and other enchanting global environments. Through our Greece Artwork collection, we warmly invite you to bring the Mediterranean's vibrant charm and the Greek coast's tranquillity into your home. Crafted with a commitment to sustainability and quality, our artworks revitalise your bedroom or other interiors with visually stunning depictions and reflect our dedication to eco-conscious practices.

SEMPRE, “CREATORS OF ATMOSPHERES”

In the realm of design, where simplicity and extravagance often intertwine, Sempre emerges as a harmonious middle ground.

At our core, we don't just craft items; we sculpt atmospheres. Our philosophy is a symphony of nature's unadorned beauty and a meticulous passion for detail, crafting spaces that whisper the true essence of luxury.

PHILOSOPHY AND PROCESS

At Sempre, we consider ourselves to be more than just designers; we see ourselves as creators of ambiance.

Our design approach emphasizes the importance of simplicity, incorporating natural and organic elements with a strong focus on detail. This method goes beyond the usual scope of product design, aiming to craft spaces that connect emotionally and make a lasting impression.

Our commitment to our craft is driven by a desire to enrich the

experiences within the spaces we touch, acknowledging the profound impact our designs have on the overall vibe and satisfaction of the end-users. Whether they are private individuals, customers of our retail partners or guests of our hospitality projects, our objective remains unwavering: to enrich experiences and elevate the ordinary to extraordinary.

SUSTAINABILITY AND MATERIALS

Central to our ethos is a deep-seated commitment to sustainability. This commitment comes to life through our sourcing of exquisite reclaimed teak and oak from ancient abodes, breathing new life into materials that would otherwise be discarded. Our exclusive range of reclaimed tables, chairs, and other furnishings not only captivate the senses but also serve as a testament to eco-conscious elegance.

extend beyond design; we oversee and execute projects from start to finish, delivering unique lifestyle products and environments that stand out from the ordinary.

In the realm of luxury, true distinction lies in the ability to tell a story – your story. Sempre is not just about the products we create but the stories they embody and the atmospheres they inspire. If you’ve ever dreamed of a space that

narrates your journey, echoes your passion, and feels unequivocally yours, Sempre invites you to explore the horizon of possibilities with us.

BESPOKE DESIGNS

Sempre stands synonymous with bespoke luxury. We offer furniture and interiors customized to fit the specific dimensions and style preferences of our clients, ensuring our products closely align with their individual tastes. Our services

Embark on a journey of discovery with Sempre.

Contact our project department at sales@sempre.be with reference AOD70 to breathe life into your space, reflecting your unique personality and story. Let us craft an ambiance that is uniquely yours.

MODEST GARDEN STUDIOS TO SPACIOUS HOMES

Ecospace Studios, a London-based architectural firm, has created breath-taking modular buildings for multiple uses including garden offices, homes and educational buildings over 20 years ago.

The vibrant and multicultural team works from their central London office. The studios' approach was to create a high-quality sustainable building at a fixed cost and short

delivery period by combining design and off-site construction in-house. They provide a flexible modular building that can be simply tailored, reconfigured or extended and applied to a diverse range of uses.

Ecospace buildings are made mainly from sustainable wood from renewable, certified sources. The off-site production improves quality control, efficiency and eliminates waste through recycling. The structures are designed to maximise energy efficiency with high insulation values through substantially thick multi-layered floors, walls and roofs.

Use an Ecospace building as a home office and the commute to your garden will drastically reduce your

carbon footprint. They can even integrate renewable energy options including photovoltaic solar panels, ground & air source heat pumps, wind turbines, biomass boilers and log burning stoves.

ECOSPACE BASE - PRICELESS DESIGN FOR EVERYONE

Ecospace Studios has introduced Ecospace BASE to their range of buildings that is more compact in size and price but has all the professional design, quality and sustainability as their original studios.

THE ARTIFICIAL **PLANT COMPANY**

Fake Landscapes design and build exterior and interior greenery for high-end projects. Anything from hotels, residential developments and restaurants, through to yachts, pools and private houses.

They've been going since the 1980's and have maintained a Chelsea showroom throughout. They felt then (and do now) that there are so many terrible artificial plants about, people should be able to see and choose what it is they're getting. Also, artificial plants don't really lend themselves to internet sales, except at the bottom rung of the quality ladder.

About 75% of Fake Landscapes work is installed outdoors using UV-resistant plants, and they design and build projects all over the world. That being said, a good half are in London or nearby - hand-made green walls, boxwood and bay topiary, hedges, ivy screens, cypress trees, window boxes and more. All sun resistant, wind and water-proof, and to a level of quality well above anything else out there. As an added bonus, both their interior and exterior plants have a much lower carbon and water footprint than live plants or cut flowers over their lifespan.

For interior use, the showroom has a dazzling selection of flowers, orchids and trees for callers. The emphasis is very much on personal service, there's no 'distance selling' - you just have to pop in!

Fake Landscapes are at 301 Fulham Road, SW10 9QH, by the corner of Beaufort Street and Drayton Gardens. They're open 11-5 Monday to Friday, the telephone is **020 7835 1500**, and their email is **decorex@fake.com**. There's a lot more information plus a contact form on **www.fake.com**

fake landscapes

- the artificial plant company

a (much, much) greener alternative ... *

That's not a joke.

Yes, of course our products are made from petro-chemicals. But one of our perfect cut hydrangeas or peonies uses just a few grams of plastic, fabric and wire - plus a little energy. It'll look great for a decade. Or more.

Over the same time period people have to grow, heat, light, water and fertilise the 'real thing' five hundred times. Then kill them, put them in cardboard boxes and ship them. A week later you'll throw them away ...

Ditto, the entire weight of one our excellent green walls is well under one third that of the (also plastic-based) backing structure and watering system of a live green wall. Ours don't need fertiliser or scaffolding to replace dead plants either. Fit and forget, and the rain keeps them clean!

All that would mean nothing if our stuff didn't look amazing, but it does.

There's not much point in showing you pictures - all plants, live or fake, look pretty much the same in photographs. We're simply one of those odd analogue businesses where you actually have to see the products.

So if you're intrigued, just pop into the showroom at 301 Fulham Road when time allows, You'll find us relaxed, professional - and, after 40 years - pretty good at what we do!

**Many people are blindly prejudiced and can't appreciate that reality. It would be tempting to call them fakeists ...*

THE BENEFITS OF USING MANAGED STORAGE SERVICES

Clockwork Removals and Storage has been providing expert relocation and storage services throughout the UK since 1996. They are a British Institute of Interior Design Platinum Partner and have extensive experience of working with interior designers and private individuals.

MANAGED STORAGE

Taking delivery of your entire FFE list, the Clockwork team will unpack, condition check and re-wrap the items to be put back in storage ready for delivery out to your project. They will even photograph the items for a shared spreadsheet so you can keep up to date with exactly what has been received into storage and when.

DELIVERY

Clockwork has a fleet of vehicles from 18ton HGVs to smaller Luton lorries and transit vans. This allows them to adapt to the needs of

their clients and the access at their properties. When you are ready to have the furniture delivered out to the property, the Clockwork team offer a range of services from a simple delivery to a fully bespoke package. Their white glove delivery service is on hand 24/7 to expertly unpack and position the items to your exact requirements. Taking away and ethically disposing of all wrapping and packing materials at the end of the installation.

INSTALLATION

Clockwork have in-house handymen and a range of trusted suppliers they use for installation work. The teams are experts in precision; hanging artwork and mirrors to your exact requirements. The Clockwork team also use floor runners and carpet protection as well as padded door cushions to protect doors and furniture when moving throughout the property.

INSTALLING OVERSIZED ITEMS

The team have the knowledge, expertise and equipment to execute the installation of heavy and oversized items and have the warehouse space to accommodate very large items in storage. Clockwork's skilled team have the range of tools and equipment needed for the installation of large pieces of artwork, chandeliers, mirrors and oversized furniture. From piano wheels, skates and barrows to vehicle-mounted telescopic furniture lifts and cranes, they have the expertise to move furniture safely and efficiently.

Clockwork Removals even provide a dedicated contact who will work with you to fully understand the scope and timescale of your project, providing site surveys and flexible solutions that work for you throughout the course of the project.

With branches across the UK, get in contact with

6 WAYS TO SAVE YOUR INTERIOR DESIGN INSTALLATION FROM GOING UNDER

As a premier provider of interior design furniture installations, we understand the intricacies and challenges that come with ensuring a seamless execution of your design vision.

From concept to completion, every step matters in delivering a stunning and functional space that exceeds your client's expectations. However, even the most meticulously planned installations can encounter hurdles along the way. That's why we've compiled six invaluable tips to help you navigate potential pitfalls and safeguard your interior design installation from going under.

1) THOROUGH PLANNING AND PREPARATION:

The foundation of a successful interior design installation lies in meticulous planning and preparation. Prioritize detailed site assessments, precise measurements,

and comprehensive project timelines. Anticipate potential obstacles and have contingency plans in place to address unexpected challenges swiftly and efficiently.

2) CLEAR COMMUNICATION & TEAMWORK:

Effective communication is key to avoiding misunderstandings and ensuring all interior designers, architects, builders, installations company and other sub-contractors are aligned throughout the installation process. Maintain open lines of communication and the ability to work together and not against each other has a huge

impact on the result of the project, more than you might think. Clear communication fosters trust and transparency, paving the way for a successful outcome.

3) QUALITY MATERIALS AND CRAFTSMANSHIP:

Invest in high-quality materials and craftsmanship to elevate the aesthetics and longevity of your interior design installation. Partner with reputable suppliers and sub-contractors who share your commitment to excellence. Superior materials and craftsmanship not only enhance the overall look and feel of the space but also contribute to its durability and functionality.

4) PROFESSIONAL INSTALLATION SERVICES:

Entrust your interior design installation to experienced professionals who possess the expertise and precision required to bring your vision to life. Our team of skilled installers is dedicated to delivering flawless results, ensuring every detail is executed with precision and care. From furniture assembly to spatial arrangement, we handle every aspect of the installation process with utmost professionalism and proficiency.

5) ADAPTABILITY AND FLEXIBILITY:

In the dynamic world of interior design, adaptability is essential to overcoming unforeseen challenges and evolving client preferences. Remain flexible and receptive to feedback, allowing for adjustments and refinements as needed. Embrace change as an opportunity for innovation and improvement, ensuring your installation remains relevant and impactful in the ever-changing landscape of design.

6) GOOD INVENTORY MANAGEMENT SOFTWARE:

I know this is the last point but this is a game changer when done right. Operating your inventory management system must be as easy to use as Apple phones and look like a social media app. The biggest factor here is the organization benefits and automation that keeps giving you live updates with photos and comments. We use Trello and have custom built it for our clients.

In conclusion, safeguarding your interior design installation from

potential setbacks requires careful planning, clear communication, and a steadfast commitment to quality and professionalism. By adhering to these six essential principles, you can ensure your installation not only meets but exceeds the expectations of your clients, leaving a lasting impression that speaks volumes about your expertise and dedication to excellence.

If you want to find out more about how we operate and successfully deliver top of the range interior design installation. Then visit the website below to book in a call or demo with us and walk you through how we would do your project in the future.

BUYING THE BEST VALUE ANTIQUES: FIVE MUST-ASK QUESTIONS

With the huge range of antique shops, dealers, flea markets and galleries, it can be hard to know where to start collecting.

Antiques expert Iain Brunt is the founder of Antiques.co.uk, the UK's most established online antiques marketplace. He believes that there are crucial questions to ask before you start spending.

From Iain's many years of experience at galleries in New York, London, Paris and Japan comes this list to help you choose the best value antiques.

Observe before questioning: Your eyes will provide the answers to anything you need to know. Look carefully and try to learn from your mistakes. Don't be overwhelmed by your excitement - never buy unless you are completely sure.

Look closely: Inexperienced buyers often don't properly look at the item. Ask yourself what it is that makes this piece so special?

Visit museums - and don't rush: Prepare for the moment of buying your first piece by visiting museums. Look closely at pieces and styles. When buying, ask yourself whether the piece is good enough to be in a museum. If your answer is yes, buy it - but don't rush.

Choose a period and object that you like: Visit museums, shops, galleries and exhibitions that deal with the subject you're interested in. Talk to expert dealers. Searching online is a good place to start learning.

Buy the best you can afford: There's no point buying several lesser quality works when you could invest in one really good piece. Apply your business filters, but the main requirement is that you like it.

Iain adds: "Remember: you must enjoy the piece you've bought... and have some fun discovering the world of antiques."

05 MILES BISHTON

Miles Bishton has been painting and drawing since his school days. When leaving comprehensive he started a job at a purpose made wood work company and completed his five year apprenticeship as a wood machinist. In later years he became a self taught furniture maker and most of his work was creating bedroom furniture. When getting back into painting he began to develop a style with women figures and tall buildings, and today carries on with that same theme.

If you would like to see his work please visit www.bishtonart.net.

06 CUSTOM CARPET COMPANY

A family run business with more than 40 years experience in producing custom made carpets and rugs for luxury homes, boutique hotels and superyachts.

With a diverse range of products within our portfolio, we can supply all types of custom made carpets and rugs in wool, silk, tencel, bamboo and blended yarns.

We have specialist knowledge in many methods of manufacturing including handtufting, woven, handknotted and passmachine constructions.

Our team offer a comprehensive service, meeting with designers and clients, advising on colour, pile fibre and manufacturing techniques to achieve the perfect design solution.

We are able to deliver and install world wide to ensure seamless project management throughout.

PROJECT CASE STUDY: **BURMATEX® AND UNIVERSAL FIBERS® ENSURE SUSTAINABILITY TAKES PRIORITY IN ARCHITECT'S RELOCATION**

Bond Bryan architects are known for creating lasting, sustainable environments that enrich the lives of people and their communities.

They are committed to becoming a truly Net Zero practice - both in how they design and deliver their buildings and through the choices they make in running their own practice. As part of their continued commitment to the RIBA 2030 Climate Challenge and Architects Declare, they relocated to a more sustainable, carbon-conscious space within Sheffield city centre.

This move is a significant step forward for Bond Bryan, better representing their values as a practice. The new office has an open plan layout, including a collaboration zone, open booths, a 'make and meet' area, a prominent social kitchen area, and a staff wellbeing room. Their emphasis on staff health, wellbeing, and happiness is developed in accordance with the WELL Standard.

In addition to repurposing existing furniture, fittings, and finishes as

part of their zero-demolition waste strategy, Bond Bryan prioritised materials for their low embodied carbon content. They specified low VOC and low formaldehyde products and avoided glue fixings to ensure a high level of indoor air quality.

For flooring the 5,000 square foot office space, Bond Bryan specified Burmatex® arctic® carpet tiles, which unite Burmatex® BioBase®, a carbon-neutral recycled backing, with Universal Fibers® Thrive® matter yarn, the world's first carbon-negative recycled yarn. Made in the UK, this eco-friendly flooring solution was ideal for this project. IOBAC MagTabs® were used to affix the carpet tiles to the raised access flooring for an adhesive-free installation, eliminating VOCs associated with adhesives to ensure better indoor air quality. Thanks to the unique reversible fixing mechanism, the carpet tiles will be contamination-free on uplift and can be easily reused or recycled via the Burmatex® Recovery Take Back Service.

John Doherty, Head of Marketing for Burmatex®, said, "At Burmatex®, we place sustainability at the top of our agenda. Our eco-friendly

product portfolio focuses on designing and creating innovative products such as our versatile arctic® plank and tile collection, available in 12 easy-to-use, naturally inspired colours. Working in collaboration with companies like Universal Fibers® and manufacturing in the UK enables us to deliver effective, sustainable flooring solutions to clients like Bond Bryan".

Anna Plumb, VP of European Sales and Marketing at Universal Fibers® adds, "Our 'You First™' commitment is a promise to our customers that we will continue to innovate unique fibres and finishes that ensure they can develop sustainable, high-quality products with confidence. We work closely with our customers and are delighted to have had new products from Burmatex® on display in our booth earlier this year during Clerkenwell Design Week".

Universal
Fibers

*Exceptional design extends beyond stunning aesthetics. At Universal Fibers®, we've been at the forefront of responsible innovation for years, demonstrating that beautiful, high-performance interior solutions can be achieved sustainably. Our **Thrive® matter** fibre is proof of just that. Boasting the industry's lowest carbon footprint and 90% total recycled content. In short, we provide sustainable solutions that elevate your design spaces.*
