2) On December 5th, House Republicans will hold a hearing to receive testimony from witnesses regarding the DOJ's investigation into the Clinton Foundation.

House Judicial Chair Bob Goodlatte discussed the hearing.

3) According to this report by The Hill, the Clinton's involvement in the sale of Uranium One to the Russian Company Rosatom may also be discussed during the hearing.

#### House GOP to hold hearing into DOJ's probe of Clinton Foundation

6) Last night, on the Sean Hannity show, Jon Solomon announced that a different whistleblower had been contacted by Huber's team. Solomon said more information would be provided on Monday.

7) John Huber's investigation had not had a single leak to media until last night.

Apparently, the person who leaked the information to Solomon wasn't supposed to.

Q asked them not to reveal anything else.

The "Experts"  
But... SESSIONS should appoint a 2nd SC in DC aka THE CORRUPT SWAMP  
But... SESSIONS should appoint a 2nd SC in DC aka THE CORRUPT SWAMP [team of less than 20 typically] & wait 2-4 years (take a gamble)  
But... SESSIONS should appoint a 2nd SC in DC aka THE CORRUPT SWAMP because unlike the CLINTON EMAIL CORRUPT CASE (as demonstrated by the FBI/DOJ people FIRED/REMOVED) this will be conducted faithfully and honestly [like MUELLER]  
But... HUBER has not directly interviewed several witnesses therefore the appointment of HUBER by SESSIONS (and therefore the IG) is not genuine.  
But... SESSIONS & HUBER are following standard DOJ open/ongoing investigation policy by not discussing [making public] so therefore nothing must be happening [FIRE SESSIONS]  
But... HUBER (ability to prosecute + empanel a grand jury outside of DC [90%+ voted HRC (2016), who already began the investigation(s) late last year w/ assigned team of 470 investigators (attorneys) + IG - legal jurisdiction across all 50 states, is not a special counsel so therefore nothing is being done

But... POTUS is attacking SESSIONS via TWITTER so therefore he is not working on behalf of the people's interest (or POTUS') [D's LEFT LOVE/TRUST SESSIONS]  
But... interestingly, if nothing is being done behind the scenes, why are so many FBI & DOJ senior officials being FIRED and/or REMOVED from their respective positions of power? Who is AG? Who must sign off on each removal? DOJ in charge of FBI?  
But... interestingly, if nothing is being done behind the scenes, why are there 50,000+ sealed indictments across the US (what % = USA v. X)? Coincidence vs. HUBER start?  
But... interestingly, if nothing is being done behind the scenes, why are many 'powerful' CEOs, members of Congress/ Senate, resigning? Coincidence? Example: Pro. POTUS did the SPEAKER OF THE HOUSE indicate wanting to leave politics?  
But... interestingly, if nothing is being done behind the scenes, why are human trafficking arrests SURGING?  
.....  
Clickbait & opinion vs. logical thinking.  
Direct communication necessary.

Comey is scheduled to testify next week in a closed-door hearing if his motion to quash the Congressional subpoena is denied by a Judge on Monday.

Come timestamp re: attorney challenge to subpoena?

Q

<https://pbs.twimg.com/media/DtXaammUwAU4cZQ.jpg>

18) Let's look at timestamps.

Q suggested Comey's emails and texts (the ones requested by Congress) could be released either before or after Comey testifies.

That post was on November 25th.

WHITAKER (in conjunction w/ OIG) approved the release of CLAS docs 1-4 as requested by the House Committee and as ORDERED BY THE PRESIDENT OF THE UNITED STATES.

Will the release occur prior to scheduled testimony?

List advantages.

Will the release occur post scheduled testimony?

List advantages.

If those testifying 'know' select CLAS docs will become public [self-incrimination] how might that alter/change their testimony?

<https://pbs.twimg.com/media/DtYcm72VAAEWZ-T.jpg>

19) The following day, the 26th, after realizing the declassification of his own documents after his testimony could cause a problem (especially if he intended to lie) Comey began considering his options.

In a discussion between Hannity, John Solomon and Sara Carter, something new came to light about the Clinton Foundation investigation.

HANNITY: Now, there's something percolating that will probably break Monday. You're both smiling. Do either one of you want to give the audience...well, a little heads up....

JOHN: I'll give you some breaking news right now, Sean. Just two hours ago, federal prosecutors assigned to John Huber, the [Utah] US Attorney investigating the Clintons, reached out to a whistleblower in the Clinton Foundation, [this is the] first time we've seen contact between a Clinton Foundation whistleblower and that particular federal office. That just happened tonight.

HANNITY: Are you talking about the one who's home was raided?

JOHN S.:No, this is a new—a different whistleblower that you might....you'll learn a lot on Monday, I betcha.

HANNITY: All right, we'll learn a lot more on Monday. Sara, last word...

SARA: We need to keep our eyes—

HANNITY: What's the preview of Monday's coming attraction?

SARA (big laugh): I think we've got a lot to look forward to on Monday, Sean. And I think the American people are going to see that there was [something] happening behind the scenes at the FBS as well as the Dept of Justice. And Michael Horowitz has been doing a very deep dive into this...There's gonna be a lot of breaking news in the next month and [in] the months to come.

Office of the Deputy Assistant Attorney General

Washington, D.C. 20530

June 27, 2002

**Memorandum for Daniel J. Bryant  
Assistant Attorney General, Office of Legislative Affairs**

*Re: Applicability of 18 U.S.C. § 4001(a) to Military Detention of United States Citizens*

You have asked us whether the detention of United States citizens as enemy belligerents by the U.S. Armed Forces violates 18 U.S.C. § 4001(a) (2000). We understand that the question has arisen in briefings before the Senate Judiciary Committee and the Senate Select Committee on Intelligence concerning the recent transfer of Jose Padilla, aka Abdullah al Mujahir, from the custody of the Department of Justice to the control of the Department of Defense.

Section 4001 of Title 18 states:

- (a) No citizen shall be imprisoned or otherwise detained by the United States except pursuant to an Act of Congress.
- (b) (1) The control and management of Federal penal and correctional institutions, except military and naval institutions, shall be vested in the Attorney General, who shall promulgate rules for the government thereof, and appoint all necessary officers and employees in accordance with the civil-service laws, the Classification Act, as amended and the applicable regulations.
- (2) The Attorney General may establish and conduct industries, farms, and other activities and classify the inmates; and provide for their proper government, discipline, treatment, care, rehabilitation, and reformation.

18 U.S.C. § 4001.

As we explain below, the President's authority to detain enemy combatants, including U.S. citizens, is based on his constitutional authority as Commander in Chief. We conclude that section 4001(a) does not, and constitutionally could not, interfere with that authority.

"Goodbye, Mister Rosenstein"

Rosenstein has been removed from oversight of Robert Mueller's investigation.  
Will he be removed as Deputy Attorney General?

"Goodbye"

1. Fired and/or removed from DOJ

2. Removed from SC oversight

83) In October, amid rumors that POTUS was considering firing Rod Rosenstein, he was invited to travel with Trump on AF1 to a law enforcement conference in Florida.

**Rosenstein to travel with Trump on Air Force One**

Deputy Attorney General Rod Rosenstein is set to travel aboard Air Force One with President Trump on Monday.

Worldwide seismic wave in 17  
Second interval pulses

<https://pbs.twimg.com/media/DtcsnauU4AAcx9a.jpg>

95) Here's an article about the mysterious [17 second] wave.

**Strange waves rippled around the world, and nobody knows why**

Instruments picked up the seismic waves more than 10,000 miles away—but bizarrely, nobody felt them.

<https://www.nationalgeographic.com/science/2018/11/strange-earthquake-waves-rippled-around-world-earth-...>

<https://www.nationalgeographic.com/science/2018/11/strange-earthquake-waves-rippled-around-world-earth-geology/>

Finally, chugging along at the end come slow, long-period surface waves, which are similar to the strange signals that rolled out from Mayotte. For intense earthquakes, these surface waves can zip around the planet multiple times, ringing Earth like a bell, Hicks says.

However, there was no big earthquake kicking off the recent slow waves. Adding to the weirdness, Mayotte's mystery waves are what scientists call monochromatic. Most earthquakes send out waves with a slew of different frequencies, but Mayotte's signal was a clean zigzag dominated by one type of wave that took a steady 17 seconds to repeat.

"It's like you have colored glasses and [are] just seeing red or something," says Anthony Lomax, an independent seismology consultant.

[https://en.wikipedia.org/wiki/Standard\\_deviation](https://en.wikipedia.org/wiki/Standard_deviation)

# Standard deviation

From Wikipedia, the free encyclopedia

*For other uses, see [Standard deviation \(disambiguation\)](#).*

In statistics, the **standard deviation** (**SD**, also represented by the lower case Greek letter sigma  $\sigma$  or the Latin letter *s*) is a measure that is used to quantify the amount of variation or *dispersion* of a set of data values.<sup>[1]</sup> A low standard deviation indicates that the data points tend to be close to the mean (also called the expected value) of the set, while a high standard deviation indicates that the data points are spread out over a wider range of values.

The standard deviation of a random variable, statistical population, data set, or probability distribution is the square root of its variance. It is algebraically simpler, though in practice less robust, than the average absolute deviation.<sup>[2][3]</sup> A useful property of the standard deviation is that, unlike the variance, it is expressed in the same units as the data.

In addition to expressing the variability of a population, the standard deviation is commonly used to measure confidence in statistical conclusions. For example, the margin of error in polling data is determined by calculating the expected standard deviation in the results if the same poll were to be conducted multiple times. This derivation of a standard deviation is often called the "standard error" of the estimate or "standard error of the mean" when referring to a mean. It is computed as the standard deviation of all the means that would be computed from that population if an infinite number of samples were drawn and a mean for each sample were computed.

It is very important to note that the standard deviation of a population and the standard error of a statistic derived from that population (such as the mean) are quite different but related (related by the inverse of the square root of the number of observations). The reported margin of error of a poll is computed from the standard error of the mean (or alternatively from the product of the standard deviation of the population and the inverse of the square root of the sample size, which is the same thing) and is typically about twice the standard deviation—the half-width of a 95 percent confidence interval.
