PROGRAM FEATURES AND BENEFITS

Exercises in English is easy to implement and is a perfect solution to close learning gaps, stem learning loss, or simply give students more practice.

Workbooks are leveled C–H, which align with typical third through eighth-grade grammar proficiency. This leveled approach allows teachers to **quickly assess students and provide the right level of practice** regardless of skill level.

Exercises in English features rigorous practice in every area of grammar, usage, and mechanics and offers brief instructional reminders for each grammar topic.

Each content section concludes with an interactive review, which helps reinforce and gauge skill mastery. Interactive reviews are accessible through on-page QR codes.

Purchase of the program includes access to the LP Digital Library, where teachers will find printable assessments and answer keys for each topic covered in the program.

An enhanced assessment experience that includes **classroom management tools is available through the LP Online Assessment System**. Sold separately.
