is proud partners with

CRAFTSMANSHIP AND THE ART OF DESIGN: **A TIMELESS PURSUIT**

A PROFOUND
CONNECTION
WITH CULTURE
AND HERITAGE

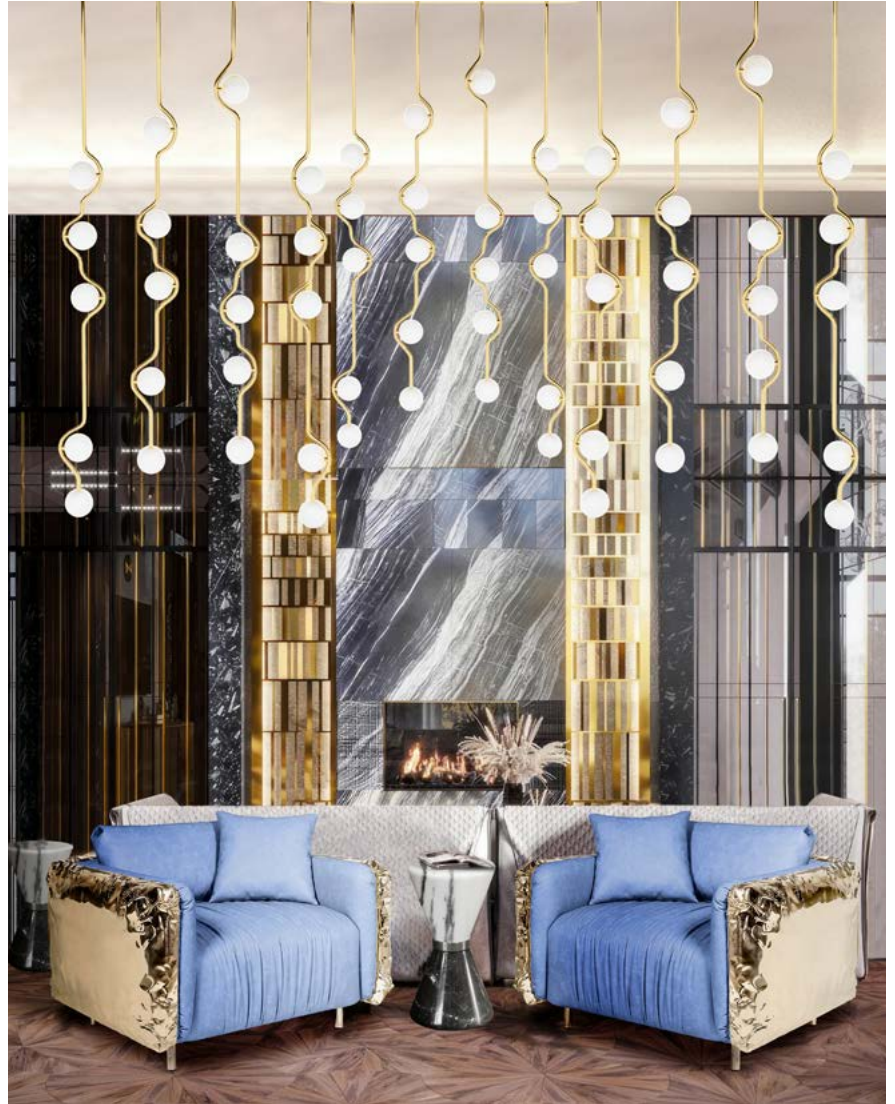

Craftsmanship, rooted in ancient traditions and techniques, embodies the meticulous attention to detail and the mastery of skills that transform raw materials into exquisite creations. The art of design, on the other hand, encompasses the visionary process of conceiving, planning, and executing innovative ideas that shape our surroundings and experiences. Together, they form a symbiotic relationship that celebrates the beauty of functionality and aesthetics.

Curated design relates, among other things, to an intense desire for exclusivity. Art and design meet each other in a thrilling composition for the senses and all you have to do is sit tight and enjoy the experience. For every interior design project, there's always a curated masterpiece that stands out in the whole atmosphere - now you can have yours through Covet House and its brands. Let's meet them.

WOODWORKING IS NOT MERELY A CRAFT

Covet House and its brands are renowned for their exquisite collection of luxury furniture, lighting, and accessories, curated

by the world's most skilled artisans and craftsmen. These artisans employ a variety of traditional and contemporary craft techniques to create stunning pieces. According to the founders, "all the brands feature a range of meticulously crafted wooden furniture. Woodworking is not merely a craft; it is a soulful expression where each stroke of the chisel and every curve of the grain tells a story of craftsmanship, patience, and reverence for the timeless elegance of nature".

The skilled craftsmen employ woodworking techniques such as marquetry, carving, and inlay to create intricate patterns and designs on tables, cabinets, and chairs. Traditional joinery methods ensure the durability and longevity of the wooden pieces.

METALWORK IS THE ALCHEMY OF CRAFTSMANSHIP

Another important skill is the use of metalwork. For Covet House, this is "the alchemy of craftsmanship, where raw steel and iron transform under the skilled hands of artisans into timeless pieces of art, embodying the strength of character and the grace of creativity".

Metal artisans at Covet House utilize techniques like forging, casting and welding to create stunning metal furniture and lighting fixtures. These techniques allow for the production of intricate designs, decorative elements,

and structural components in materials like brass, bronze, and stainless steel. One thing is certain: unique and beautiful solutions can be found here. For all types of furniture, each brand always gives a special touch.

WEAVING COMFORT AND STYLE TOGETHER

The brands also offer a luxurious selection of upholstered furniture. Expert craftsmen use traditional upholstery techniques, including hand-stitching and tufting, to create comfortable and visually appealing sofas, armchairs, and ottomans. High-quality fabrics and leathers are meticulously tailored to achieve

a perfect fit. In the founder's words, "upholstery is the silent artistry that turns bare frames into sumptuous seats, weaving comfort and style together". In the hands of these talented craftsmen, fabrics breathe life into furniture, and every stitch tells a tale of craftsmanship, luxury, and enduring elegance.

ARTISANS SHAPE FRAGILE TRANSPARENCY INTO ENDURING BEAUTY

"Glasswork is the poetry of light, where artisans shape fragile transparency into enduring beauty". This is how Covet House looks at the hands of its skilled craftsmen, where molten sand becomes art, capturing the dance of colors and the brilliance of imagination, illuminating our world with grace and wonder. In fact, all the brands include glasswork techniques, such as blown glass, stained glass, and glass cutting, to craft exquisite lighting fixtures, decorative accessories, and tabletop items. These methods result in unique, artistic pieces that add a touch of sophistication to any space.

THE ORDINARY BECOMES EXTRAORDINARY

Covet House showcases a diverse range of ceramic and pottery items created by its fabulous artisans. Hand-molding, throwing, and glazing techniques are some of those examples, in which each piece reflects the artisan's expertise and creativity. Ceramics and pottery are where earth meets art, and skilled hands shape timeless elegance. In the alchemy of the kiln, clay transforms into vessels of beauty, and each piece becomes a testament to the marriage of tradition and innovation. "In the

hands of these craftsmen, the ordinary becomes extraordinary, and the ancient whispers its secrets to the present” says the brand.

EVERY NEEDLE AND EVERY FIBER BECOMES A BRUSH

Textile and embroidery are the silent storytellers, weaving dreams into fabric and stitching emotions into threads. “Every needle and

every fiber becomes a brush, painting a tapestry of culture, tradition, and creativity”, also considering that these intricate stitches bind generations, making each fabric not just a garment but a cherished legacy of artistry. The brands offer a selection of textiles and embroidered items created using traditional techniques such as hand weaving, knitting, and embroidery. These techniques are applied to fabrics, rugs, and decorative pillows, adding texture, color, and intricate patterns to the products.

www.covethouse.eu

Images courtesy of: www.covethouse.eu

THE FINISHES ADORNING COVET HOUSE PIECES ARE NOT MERE TOUCHES

Artisans at Covet House pay meticulous attention to finishes such as gilding, lacquering, and patination. These techniques enhance the appearance of furniture and accessories, giving them a unique, luxurious character. Patina, for example, adds an aged or weathered look to metal surfaces, creating a sense of history

and depth. When asked about the power and importance of this issue for the brand, the founders declare that “they aren’t just mere touches; they are brushstrokes of sophistication, whispers of elegance, and echoes of meticulous craftsmanship. Each patina, lacquer, or gilded detail tells a tale of dedication, turning furniture into art, and spaces into masterpieces. In the world of Covet House, finishes are indeed the soulful signatures of enduring beauty.”

At Covet House, craftsmanship is a celebration of skill and patience. Craftsmen and craftswomen,

often honing their expertise through years of dedicated practice, imbue their work with a sense of passion and authenticity that machines cannot replicate. They put their vast knowledge in sourcing and producing exquisite handcrafting techniques, in which the human touch infuses each creation with a soul, making them tangible expressions of the artisan’s spirit. These artisans’ dedication to preserving traditional craftsmanship while embracing innovation ensures that every item at Covet is a testament to the timeless beauty of handcrafted design.

THREADS OF INDIA

Sofas & Stuff, experts in British bespoke furniture, are delighted to introduce the "Threads of India" collection, created in collaboration with the V&A (Victoria and Albert Museum). The exclusive collection draws inspiration from the illustrious archive of South Asian textiles at the V&A, elevating luxury living spaces with a touch of history. The collaboration marks their third venture with the V&A, celebrating India's timeless textiles and global influence.

The collection tells a story of India's unique textile heritage and traditions through fabrics inspired by opulent riding coats, tent hangings and dress fabrics. The inspired contemporary designs, presented on a linen and viscose blend, pay homage to this legacy, offering a tapestry of colours for a bespoke living experience.

Threads of India seamlessly blends history with modern design, encouraging enthusiasts to discover the intertwining of tradition and innovation within each fabric. This collaboration highlights the enduring allure of India's artistic legacy, and underscores Sofas & Stuff's dedication to infusing the timeless elegance of the past into contemporary homes.

The Threads of India collection will be available for purchase at Sofas & Stuff showrooms nationwide from January 2024. All fabric can be used on any Sofas & Stuff product or available to purchase by the metre, please contact your local showroom for more information.

MAKE ROOM FOR LUXURY: DECLUTTER YOUR HOME IN STYLE THIS NEW YEAR WITH OUR EXCLUSIVE FURNITURE AT LA RESIDENCE INTERIORS

La Residence Interiors, a leading luxury furniture retailer specialising in exclusive, high-quality furniture, is excited to present homeowners with a unique opportunity to declutter their abodes in style.

With our collection of stylish furniture and home accessories, transforming your living space into a haven of elegance has never been more effortless.

At La Residence Interiors, we understand the importance of a decluttered home. Our team of expert designers have meticulously handpicked an array of furniture pieces that not only elevate the aesthetic appeal of your living area, dining room and bedroom but also offer practical storage solutions for your everyday essentials.

Leveraging an extensive selection of the finest materials from weathered oak to Belgium linen, La Residence Interiors prides itself on delivering furniture that surpasses expectations in terms of craftsmanship, durability, and design.

One of the standout offerings from our living furniture collection is the our customers favourite Petit Royale Ottoman. Our Ottoman coffee table is a versatile piece of furniture with a weathered oak frame, brass stud detail, and deep buttoned top. Upholstered in Belgian linen or sumptuous velvet, it can be used as a coffee table, footstool, or extra seating. It also has a shelf for added storage which is perfect for storing blankets, books, and other items to keep your space tidy.

When it comes to dining furniture, our elegant Dining Table collection showcases the beautiful versatility of our signature weathered oak. Each piece is expertly crafted by hand and our collection offers you versatility.

From a small round table, perfect for your kitchen all the way to our extendable dining tables which allow you to accommodate both intimate dinners and large gatherings with ease. Complete the look with our comfortable and stylish dining chairs, available in a wide selection of colours.

La Residence Interiors believes that every detail matters, which is why our home accessories selection complements our furniture flawlessly. From decorative vases and statement lighting to bespoke wall art and luxurious rugs, you'll find everything you need to add the perfect finishing touches to your space.

Decluttering your home should never mean compromising on. We believe that luxury and functionality can coexist harmoniously, and our carefully curated collection reflects this belief. Our aim is to provide furniture and accessories that not only enhance the aesthetic appeal of their homes but also elevate their overall living experience.

La Residence Interiors invites you to visit our showroom located in Alfold, Surrey. Our team of knowledgeable and friendly staff are available to assist you in transforming your living and dining spaces into a haven of luxury and style.

DECADES OF CARE

Delcor has been creating the very highest quality upholstered furniture since 1967.

Whether you have ordered your Delcor furniture in Northumberland, Stamford, Altrincham or our Kings Road store in London, your items will be handcrafted here in Northumberland.

Our workshop staff are the very definition of craftspeople-many years of collective experience and care go into the creation of all Delcor furniture.

We have always had a family atmosphere, in many cases we have known one another and worked together for years-even decades.

The one thing we all have in common is the desire to create the very best furniture for our customers.

We all care about our products and share the same dedication to fulfilling the highest standards.

THE HISTORIC DELCOR HOUSE.

Our home and head office in Seaton Delaval was built in the 1830s for the local coal mine owner, it's a great example of Georgian architecture with its symmetrical form featuring multi-pane windows

and grand entrance. The sweeping original staircase in the entrance hall with its impressive arched window behind gives an insight into the house's occupants earlier lifestyle.

This historic house is now Grade 2 listed.

Today Delcor House has showrooms based on the ground floor- our furniture is displayed in several rooms which lend themselves beautifully to show our finest upholstery in elegant surroundings.

CREATING YOUR INDIVIDUAL FURNITURE.

Visit our showrooms where you will find our extensive range of furniture. They house our design studios which have a wonderful range of fabrics from many leading companies and manufacturers.

Here our customers can make their own individual choices and create some wonderful pieces for their homes. Our trained showroom staff will be ready to guide you and your clients to choose their perfect Delcor furniture.

From an almost limitless choice of fabrics, the perfect seat and back cushion interior fillings, leg choices, we can help create something totally individual.

DELIVERED PERSONALLY BY US.

We have always delivered all our furniture personally in our own liveried vehicles. Our uniformed delivery staff are dedicated to delivering our furniture with great care into our customers' homes.

PROUD OF OUR NORTH-EAST HERITAGE

No other company can offer you all these wonderful choices. We offer the very finest upholstered furniture, hand crafted here in Northumberland.

We are proud of our long heritage, and we are dedicated to continuing our legacy for the future.

FLUFFY FURNITURE

A new level of cosiness, the rise of the fluffy chair. Sales in shaggy chairs and sofas have soared in the last few years and we are all for it.

Creating comfort in the home as we know is so important, in an era of stressful surroundings. Adding fur texture, especially on large scale love seats and sofas adds a new level of Uber-comfort. When it comes to curvy furry chairs and poufy pouffes, bigger is definitely better!

The versatility of fluffy furniture also may seem surprising. They sit pretty in neutral calming spaces as well as funky colourful mid-century environments. We paired the Yeti sand sofa with our Astor collection, mixing the sophisticated straight lines with the curvy shaggy sofa.

Long may the cosy era continue!

www.coachhouse.com

ONDINA INTERIORS

In Italian “ondina” means ‘little wave’, the kind you see on a calm, clear sea, where the water breaks gently in its final roll.

Ondina Interiors is founded and led by Cristina Bulat, who has herself experienced waves of Italian design insights, after spending much time immersing herself in the creative splendours and visual aesthetics of Milan, before journeying on to London, where the studio was established in 2021.

Ondina Interiors creates evocative interiors around a distinct aesthetic, realised with passion through the lens of their clients. The studio’s underpinning philosophy, and what inspires each new commission is the very personal approach to each space, by fully immersing into the client’s vision. There are no formulas – everything is tailored to meet the clients’ expectations.

With an ability to offer a highly creative interior design solutions, by blending new and vintage pieces, repurposing the client’s existing items, sourcing beautiful materials and finishes, as well as designing bespoke furniture, the spaces designed by Ondina Interiors are both aesthetically pleasing and functional. Each new project is started with passion, and developed with an utmost attention to details. Feminine shapes, curves, pastel colours and where possible, the introduction of a playful object are the elements that hallmark every project signed by Ondina Interiors.

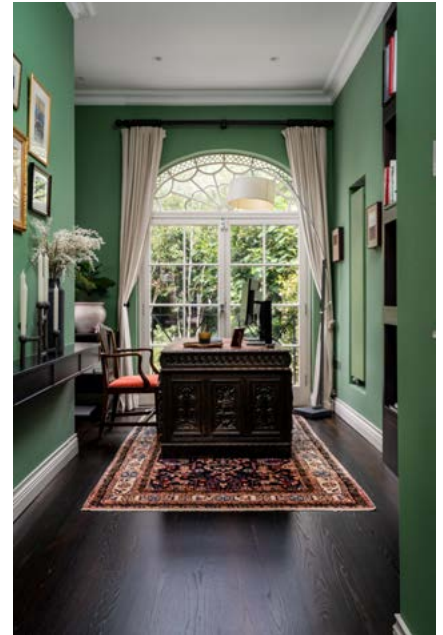

With extensive experience working on high-end residential and commercial projects, Ondina Interiors areas of expertise focus on creating beautifully considered interior designs, refurbishments and renovations in the heart of the London.

Calm and serene bedroom from a new build residential project completed by Ondina Interiors, where the brief was to create a light and fun scheme with some lilac accents.

Spirited objects - a bedroom for a little girl featuring a bespoke yellow Unbutton bedside and a custom made bedspread by Ondina Interiors.

The forest green study room from a grade II listed Georgian townhouse in St John’s Wood, where the scheme was created using furniture and art from the client’s own collection. The beautiful wooden carved antique desk originally belonged to one of the Prime Ministers of New Zealand.

Interiors that tell evocative stories through the use of colour and artwork. Detail shot from a playful dining room designed by Ondina Interiors for a young couple.

JANUARY FURNITURE SHOW GEARS UP FOR A SPECTACULAR 2024 SHOW!

Prepare for a refined experience as the UK's premier furniture showcase makes a triumphant return!

The January Furniture Show (JFS) is back at the NEC Birmingham from 21-24 January, delivering an even bigger offering of top brands, latest products, and exciting new features. As a leader in the market, JFS offers a unique chance to stay ahead of the competition by sourcing the latest launches from over 400 brands across four sectors: Premium Design, Interior and Lifestyle Accessories, Living, Dining & Cabinets, along with Upholstery & Beds - all under one roof.

In 2024, the visitor experience will be taken to new heights with the introduction of the brand-new Champagne Bar in Hall 1, which is an ideal destination for client meetings and networking. Additionally, the new Festival Food Court provides a relaxing space for visitors and exhibitors to take a well-deserved break and enjoy delicious global cuisine.

Seeing as JFS is the meeting place for the industry it's only right for the show to foster an environment of connections and networking with a full social calendar. Visitors and exhibitors can celebrate the end of a successful opening day on Sunday evening at the Show Party, where the winners of the Furniture Awards will be announced with Show Partner Furniture News. Then on Monday evening, the Women in Furniture Network hosts the 'Speedy Networking' event, uniting women across the industry in a supportive and empowering atmosphere. Don't miss out on those last-minute deals at Tuesday's Happy Hour before the show closes on Wednesday as well.

Hall 2 transforms into an aspirational marketplace, as the Home & Lifestyle Show co-locates with JFS. Retailers and designers will be able to discover 1000s of hand-picked interior accessories, lighting, furniture pieces, homewares, and lifestyle products, curated into an on-trend collection of must-haves. Featuring renowned brands like Asiatic Carpets, Blue Bone Imports, Crystal World, Febland Group, Final Touches Trading, Gallery Direct, Kelston House International, Malini, Premier Housewares, Scatter Box, SHH Interiors and more, making it a key destination for those seeking the latest homewares.

JFS continues to embrace an international flair, which is evident in the new International Pavilion featuring brands from Poland, China, Turkey, Portugal, Romania, and Vietnam. Visitors will be able to explore offerings from international brands like 3C Candy Polstermöbel GmbH, A.L.F. UNO S.P.A., Furninova, Idzczak Meble, Incanto Italia and Digio' Leather by Sofitalia, Kristensen & Kristensen, Mlily, New Trend Concepts, and many others.

An immersive addition for 2024 is the Crafting the Future Networking Hub, offering a vibrant space for

business meetings and showcasing the work of Young Furniture Makers. Visitors will also be able to participate in workshops and watch creations come to life at the experiential stations from industry leaders such as The Furniture Makers Company, ACID, BIRA, and FIRA providing invaluable insights and knowledge enrichment for visitors.

The enhanced VIP program for 2024 grants hand-picked VIPs exclusive access to the VIP Lounge, where they can relax and enjoy complimentary refreshments and lunch, private parking, entrance, cloakroom, and early show access.

In essence, JFS is an unmissable opportunity for the entire furniture industry!

INTRODUCING THE ICONIC COLLECTION FLOATING SENSATION – WEIGHTLESS FEEL

Discover a bedtime story where the characters are threads of luxury, and the plot is written in the language of peaceful slumber - a saga that is mindfully written just for you.

The narrator, Carpe Diem Beds, creates bespoke luxury beds from the finest raw materials, sculpting each piece into the chef d'oeuvre of Scandinavian design. Every bed is more than a functional piece of furniture; it's a stroke of luxury that transforms your bedroom into a place where you can truly unwind.

The company has embarked on a journey to redefine how we view bedroom furniture. With an unwavering commitment to transcending mere functionality, each bed crafted by this esteemed brand is a testament to the fusion of style and comfort - ensuring that every bed is as good to look at as to sleep in. The upcoming release of The Iconic Collection promises to be nothing short of exceptional, as Carpe Diem Beds once again seeks to make a statement in the world of bespoke bedroom furnishings.

THE ICONIC COLLECTION – INSPIRED BY HERITAGE

Imagine the serene and picturesque archipelago on the West Coast of Sweden. With the rhythmic whisper of the waves, the crisp sea breeze, and the wild heather growing among the rocks. This tranquil landscape was the source of inspiration for Börje Thuleskär, the founder of Carpe Diem Beds. On a balmy summer day wandering the Island of Stora Kornö, Börje spread out his picnic blanket on a meadow of heather to lay down and rest. As he closed his eyes, he experienced a floating sensation and a feeling of weightlessness. Since that day, that weightless feel is found in the comfort of every bed from Carpe Diem Beds. And now, the floating sensation is a part of the design.

“The Iconic Collection is an ode to the art of relaxation.”

The centred leg piece, a hallmark of The Iconic Collection, imparts an ethereal floating aesthetic. The patented Contour Pocket system within each bed ensures

unparalleled support, delivering a transformative sleep experience beyond the ordinary. Combined, The Iconic Collection becomes an ode to the art of relaxation.

Along with The Iconic Collection, Carpe Diem Beds presents breathtaking new fabrics inspired by the harmonious colour palette and mesmerising patterns found on the banks of Lysekil. These new fabrics are a timeless fusion with the existing collection, opening doors to endless creative possibilities.

As you indulge in the luxurious embrace of The Iconic Collection, you enter a journey where comfort meets innovation, design transcends the ordinary, and luxury becomes an integral part of your nightly ritual. Carpe Diem Beds invites you to embrace a floating sensation that transports you to the tranquil shores of Sweden. The new collection is more than just beds; it's a masterpiece that invites you to seize the day, starting with a night of unparalleled sleep.

CROATIAN DESIGN TAKES THE WORLD: **STUDIJO WALLART AT THE TOP OF THE WALLPAPER DESIGN INDUSTRY**

Three years in a row, Studijo Wallart, led by the accomplished artist Josipa Maras, has captured the global spotlight at the Archiproducts Design Awards in Milan.

The latest triumph, the “Grain Fields” wallpaper, reaffirmed the dominance of Studijo Wallart in the international design industry. In addition, the excellence of this wallpaper was also confirmed by the German Design Award 2024.

Specializing in the production of personalized and breath-taking wallpapers, Studijo Wallart stands as a Croatian design powerhouse. Leveraging top-notch materials and cutting-edge technology, Studijo imbues each wallpaper with authenticity and timeless art. These

personalized masterpieces adorn homes worldwide, meticulously conceived and digitally hand-painted. Notably, Studijo Wallart introduced waterproof wallpapers among the first in Southeast Europe. In 2022, they consolidated their entire production process under one roof and launched the first Croatian wallpaper factory.

This year, they unveiled a new business complex in Zagreb - Studijo Boutique Factory, aimed at creating a pleasant business experience for architects and designers while ensuring satisfaction behind the scenes. This approach allows clients worldwide to personally experience the authenticity of the artist's creative expression, the innovative approach to product development, the high quality of materials, and environmentally sustainable processes.

At the core of this success is Josipa Maras, an artist whose passion and dedication breathe life into every facet of her award-winning wallpaper designs.

“We have successfully positioned ourselves in the global market through the core values we live by every day. Today, we are present in almost twenty countries, experiencing growth and expanding into Western markets. Thanks to the Archiproducts Design Award for recognizing us for the third consecutive year. This is a tremendous achievement, even for leading global companies in the interior furnishings industry. For us from small countries like Croatia, it is only proof that one should not be afraid of their dreams,” concluded Josipa Maras.

The brilliance of Studijo's wallpapers has garnered global acclaim, earning prestigious design awards such as the Archiproducts Design Award and the German Design Award. These accolades underscore the brand's commitment to excellence and innovation in the field of design, solidifying Studijo Wallart as an inspirational oasis in the global design landscape.

LUXURY PENTHOUSE IN THE HEART OF PARIS

In Paris, the city of lights and the home of iconic design is nestled a luxurious and eclectic 1450 square feet apartment. An apartment fit for the most creative minds, this project is one of the many homes of a prolific architect, who also dabbles in the art dealing world. Boca do Lobo Design Studio teamed up with the private client to collaborate in this unique interior design project. A multimillion-dollar penthouse that reflects the owner's love for collectable design and the client's needs to have a functional space for work and to be inspired at the same time.

White is the key color of the interior design project giving it

length and the perfect starting point for different contemporary design concepts. A neutral and clean background where everything fits perfectly in harmony. From gold surfaces that express luxury, to carefully hand-painted tiles preserving history, and the final touches of marble, one of the noblest materials to ever grace our world, every detail is carefully thought out. Embracing the elegant details of classic architecture, this apartment features the white French wall mouldings, highlighting the classical style of the French windows.

Influenced by the city's renaissance period, art worthy designs and

sculptures enhance the decor bringing to life the richness of the history of those before us. The luxury apartment has an open space concept that combines all the rooms through one unique style, yet the functional needs and the high-tech amenities separate each area perfectly.

The one-bedroom luxury apartment was fully designed by Boca do Lobo Design Studio. The master bedroom, the tailored closet and the bespoke kitchen were the main challenges for the team in this exclusive interior design project. A fully functional office was also one of the architect's imperative requests.

ENTRANCE GALLERY

In interior design the entryway is the home's greeting card and what welcomes those who visit it. Contrasting in the colors but converging in the aesthetic and boldness of the pieces, the Entry Gallery shows that details are everything.

Covering the entire entryway, on both sides, the iconic and exclusive

Heritage Sideboard brings color to an almost monochromatic environment. Composed by carefully hand-painted tiles, this is a design that tells a story, through an ancient Portuguese technic. On the walls, the Halo mirrors with gold frames, that were specially designed for the client. Halos can have many forms, ranging from colored or white rings to arcs and spots in the sky.

On the end of this large entrance is featured the modern Pietra round table, carved with mastery in white marble, the key element of this space matching the typical french floors. Illuminating the setting, a beautiful white and gold chandelier brings a contemporary and futuristic touch to the entrance gallery. The Hera Round II Suspensions Light. Handmade from cast brass, this chandelier has an organic shape and intricate contemporary details to create an adjustable arrangement in a harmonious ensemble. Suitable for luxury homes and upscale rooms.

The Guest Bathroom is a completely different and inspiring room

covered in black marble and decorated with statement pieces. The Lumière Mirror is the perfect piece to open up the space and break such a strong and intense gloomy ambiance. Maison Valentina's Symphony Freestanding is a bespoke design piece made just for this interior design project and thought to gather the décor of the living room with the bathroom. A smart and elegant way to combine the same style in completely different areas.

LIVING ROOM

In a wide and bright room, the living room is one of the main areas in this opulent french apartment. Surrounded by art and romantic sculptures that call back to Ancient Greece, this space is the perfect combination of classic and contemporary, in an artistic symbiosis.

In the center of the living room lays a new version of the iconic Imperfectio Sofa, this time in a chaise long. This unique design

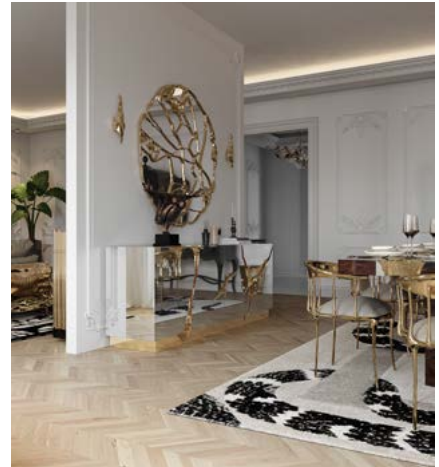

piece shows that imperfection can be perfect, and a beautiful and artsy piece can both be aesthetically pleasing, and a comfortable place to rest. Surrounded by the Imperfectio Modular sofa, the magnificent Navarra center table is a product of the brand's Bespoke Service. This design became part of 2021 novelties debuts.

The aesthetic of the space is defined by the combination of its colors, shapes and materials. The cream tones in the textiles of the upholsteries, the gold of the brass and the earth tones of the marble bring the perfect balance and harmony to the room.

DINING AREA

Following the open-concept lines of the decor, the living room transitions into the dining room, maintaining the same characteristics and aesthetic. As part of the project, the dining room is one of the stars of this elegant and artful interior design. Every piece is unique, exclusive coexisting as a masterpiece both individually and together.

The different finishes are one of the features that contribute to the coherence of this interior design project, with statement pieces and timeless hues. The dining room mixes neutral tones, with black

and dark brown wood surfaces contrasting with the exquisiteness of gold brass. But what truly elevates this ambiance are the pieces that make this project a living art-gallery, comprehensive furniture that could easily be considered an iconic collectable design piece such as the imposing Empire Dining Table taking center stage with the Glance mirror and the memorable Nº11 Chair complementing this beautiful and perfectly designed area. Illuminating the dining space is the Hera Suspension Light, defined by strong and emotional paths filled with intricate details, this mythological entity is the magical inspiration behind this lighting piece.

Transitioning into the kitchen area, this project debuts new pieces but also new spaces where Boca do Lobo can be present. Everything in this apartment is unconventional sharing the space with the dining room, the kitchen is open and perfectly embraces the aesthetic of this glamorous apartment.

Mixing dark tones and illuminated by the gold present in the whole project, this area is not only functional but also luxurious. The main piece is the dark marble Kitchen Island with the perfect amount of gold touch and the minimalistic design, to match the dining and living room. This bespoke piece was designed to break the space and to gather all the ambiances at the same time.

MASTER BEDROOM

The Master Bedroom is mainly inspired by the art pieces that the client brings from all the corners of the world, like the vintage black mirror and the contrasting rug, but the center stage it's definitely the king-size bed. This beautiful bed is framed with the handmade black Lapiaz Headboard. This imposing design piece is inspired by the french word for 'stone' that when frizzed, cracks into an unexpected stunning interior revealing all the inside details.

Alongside the rest area the team conceived a space to rest with two armchairs and the beautiful Liberté Fragmented Mirror maximizing the space even more. Now joining Imperfectio family, of the Brand, is a product design for the owner's best friend, the Imperfectio Pet Bed. A comfortable pet-essential piece, particularly resistant to water and scratches.

The master wardrobe design has a central lounge area with two statement armchairs, covered in brass, giving the space an authentic and luxury style. Glass doors unveil the Designer clothes collection and give the closet a feeling of bright and open space. Fulfilling this elegant room, the neutral and patterned Valencia rug from the brand Rug Society, a partner in this project, works really well in the interior design geometry and helps to bring warmth into the luxury closet needs.

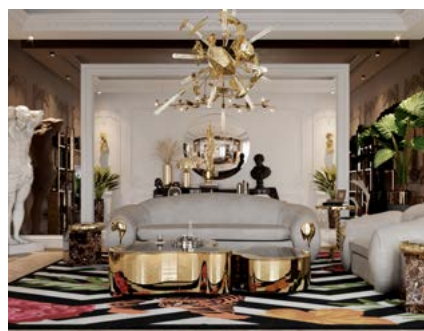

The time everyone spends in the bathroom is precious. This concept was the owner's moto to build an entire efficient bathroom that looks like a private spa. With a green wall to set the mood and a bespoke bathtub by Boca do Lobo, with artistic handmade tiles, this space was perfectly designed to inspire and calm the mind. Not forgetting the sauna area that warms the space covered in luxury marble walls and floor.

THE OFFICE

The reflection of personal style, passions, and aspirations of the private client is the motto for this working space. Leading into the creative room, the hallway maintains the same art gallery-like aesthetic as the entrance of the house, yet breaking the informality of it with the stunning and imposing Millionaire luxury safes with the strong and formal design. The Hera Suspension Lamp illuminates the entry of this room, and the marble floor reflects the brightness needed to balance this business yet inspiring environment.

Entering the room where work comes to life, the Design Studio created two distinctive areas according to the necessities of the client. Lounge space with an eclectic style to welcome the guests into a creative talk with the Soleil Sofa and Armchair and the out-of-box Savana Rug by the Partner Brand Rug Society.

Since this penthouse is the home of an architect, the Designers conceived this area as the main working place. The new Garrett Bookcase covers the side walls to provide the maximum storage keeping knowledge on display and bring into this space more character and formality. The center stage of the office is the Empire Desk. This imposing surface is a one-of-a-kind design aesthetic and refined statement that it's illuminated by the French windows conceiving a perfect place to work.

KITCHEN DINER LIGHTING

Layers of decorative lighting in your kitchen diner can help with functionality as well as bring personality and style into your home.

CREATE A CENTRAL FOCAL POINT OVER AN ISLAND OR DINING TABLE

More and more properties today really make the most of combining a social kitchen with a dining zone which overlooks a patio or garden. Whether it is a traditional period property or a modern minimalistic home, there are many decorative lights available to suit. Choose a light that has a metal finish that blends in with the architectural elements in the room such as brass, nickel or black door handles. Then if you have the space to create drama with a beautiful crystal chandelier or a modern LED sculptural light, this will help to bring a sparkling focus point into your room. Consider installing dimmer switches in your dining zone to enable you to create a relaxing ambience when settling down to a romantic meal or a family celebration.

ROOMS WITH LOW CEILING HEIGHT

You may have a low ceiling, so choose from a large collection of decorative flush or semi-flush fixtures for this situation. Many of the pendants and chandeliers come with adjustable chain and/or rods, so in this situation they can be removed to suit these applications.

CREATING ADDITIONAL LAYERS

Wall lights offer a great opportunity to make them functional wall art, especially with dramatic oversized sconces. Consider accent picture lights to illuminate your favourite paintings or under cabinet lighting to create a calm kitchen ambience in the evening. The clever use of natural light from windows, reflected into the room from statement mirrors should help make the most of bright sunny days, along with beautiful soft candle light on the table centrepiece.

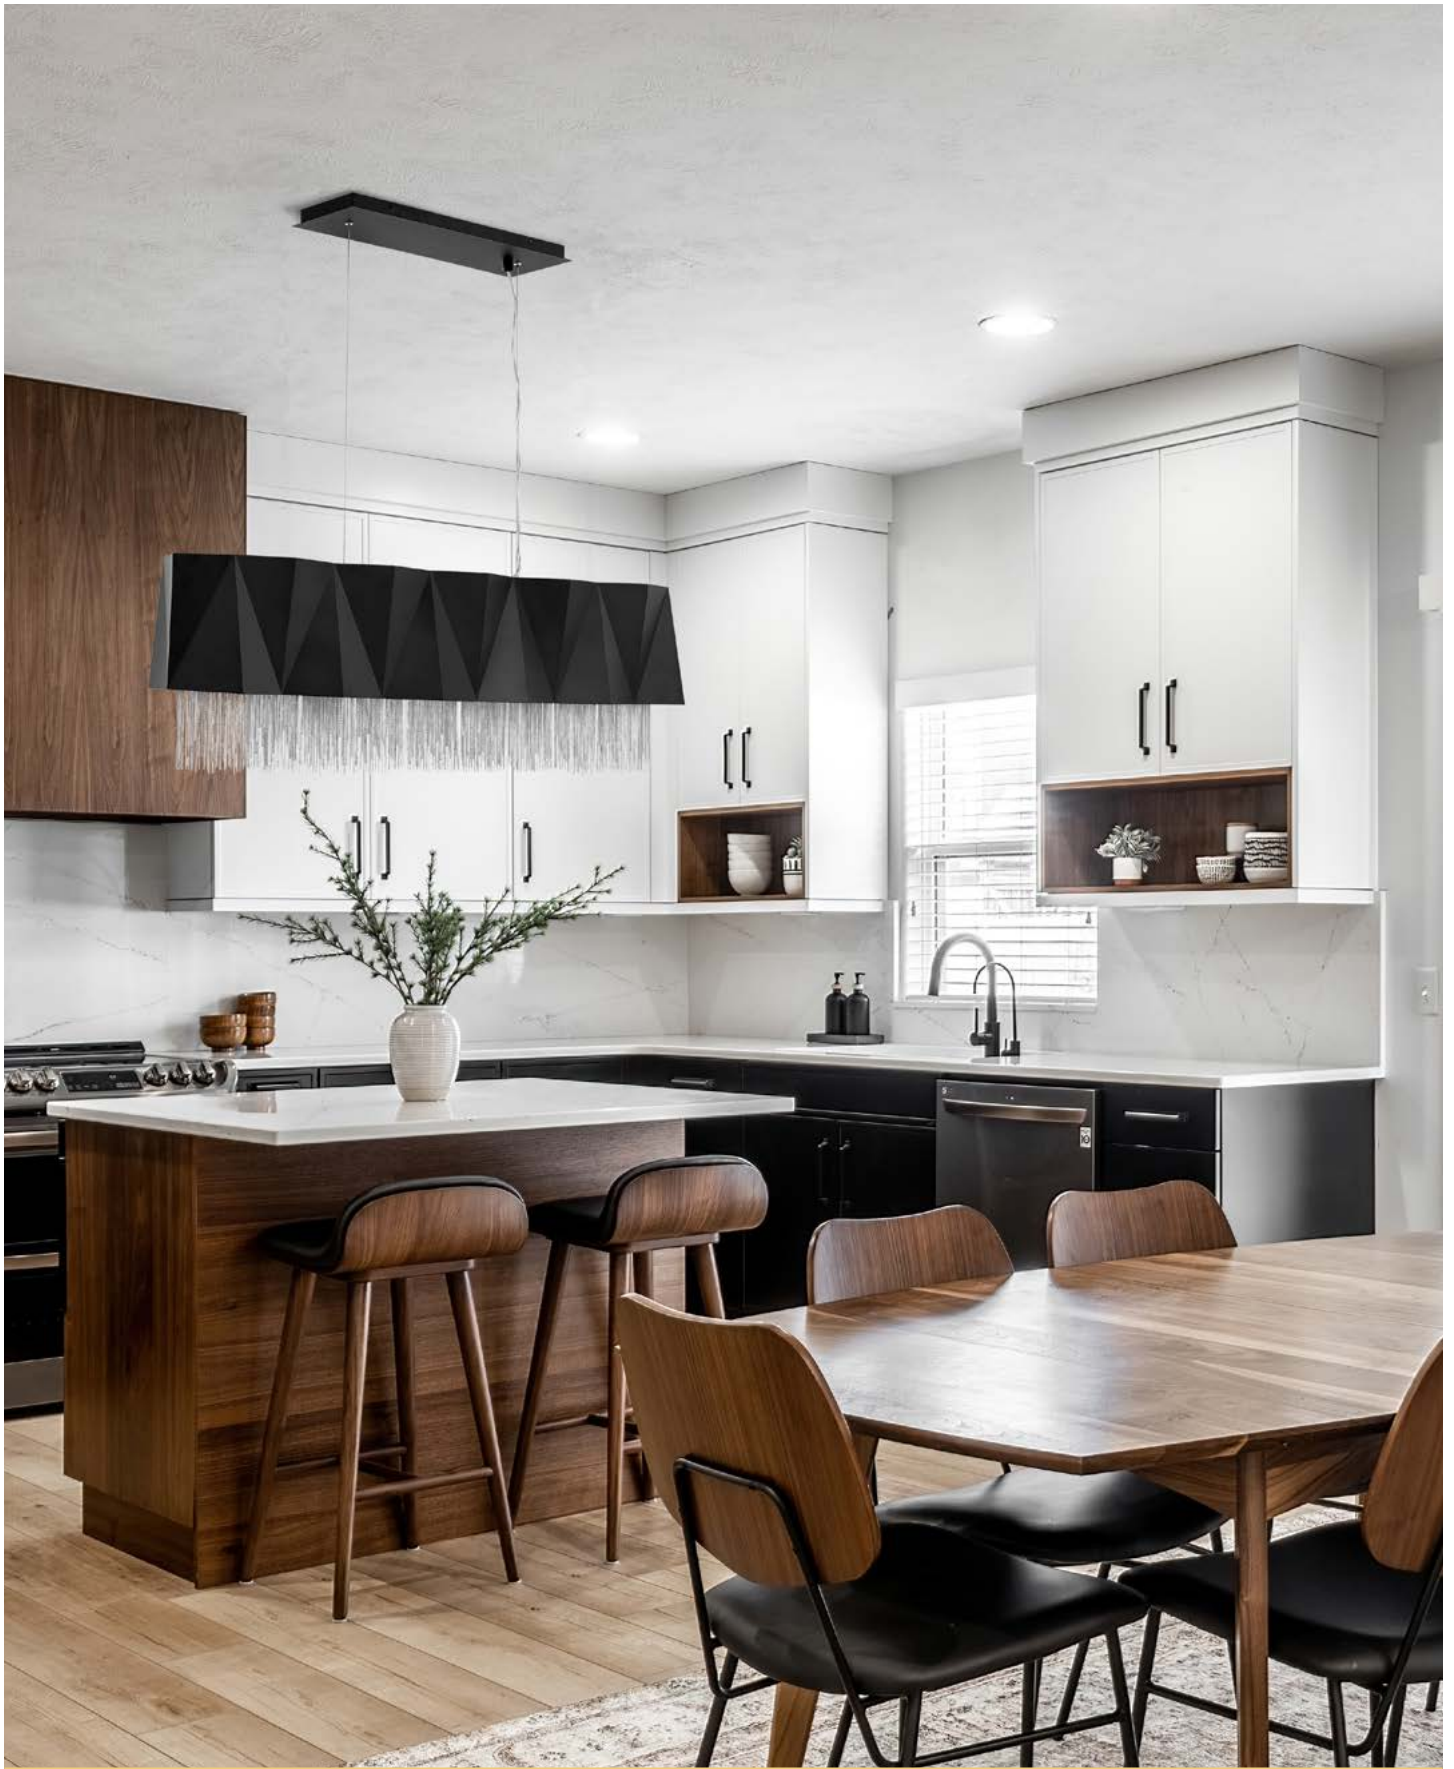

TABLE LAMPS

A pair of buffet table lamps on a side dresser can add a final soft layer of light in a dining area. Table lamps are available in all shapes and can bring a pop of colour to your décor in the daytime, as well as provide a gentle light in the evening.

For more inspirational ideas to brighten up your kitchen diner, visit the Elstead Lighting showroom in Mill Lane, Alton, Hampshire where you will find more than 2,500 lighting models on display. The variety of choice is unrivalled, and our staff are on hand Monday to Friday 9-5pm and Saturday 9-1pm, to provide a friendly advisory service.

THE DESTINATION FOR KBB INNOVATION: REGISTER FOR KBB BIRMINGHAM 2024 TODAY

The UK's largest dedicated kitchens, bedrooms and bathrooms exhibition kbb Birmingham, returns from 3-6th of March 2024.

Taking place at the NEC, kbb Birmingham will feature over 230+ exhibiting brands from across 26 different categories, featuring the very latest innovations and cutting-edge designs. The biennial event welcomes an audience of over 15,000 visitors over the four days, attracting senior decision-makers from the residential, design, retail and contract sectors.

kbb Birmingham will feature a wide range of Europe's most established and prestigious KBB brands. Exhibitors already confirmed include Electrolux, Aga Rangemaster, InSinkErator, Franke, Roca, Hanex, Nolte, Nobilia, Leicht, Harrison Bathrooms, Microvellum, Sachsenkuechen, Bariperfil, Turkish Ceramics, Leda Bathrooms, Sonas Bathrooms, Creada, St James Collection, Tru Blu and many others. From kitchen furniture and bathroom accessories to components, surfaces and worktops, kbb Birmingham presents the very latest designs. To view the 2024 exhibitor list so far, please click here.

There are countless opportunities to network at kbb Birmingham. Meet key customers, engage with actively specifying clients, gain unparalleled exposure and generate valuable leads all under one roof. Explore the latest design trends,

see the newest launches, and enjoy live demonstrations and multiple learning opportunities throughout the duration of the event.

kbb Birmingham Event Director Sam Fisher comments: "We can't wait to welcome the KBB industry back to the NEC Birmingham in March 2024. With a whole host of innovative exhibitors set to take to the show floor, this is a must-attend event for retailers, installers, developers, designers and all those seeking the latest KBB products, services, design trends and inspiration for the year ahead."

BETTER STANDS INITIATIVE

Better Stands is kbb Birmingham's parent company Infoma's landmark campaign to reduce the waste that stands at exhibitions can create. The team is working with customers to phase out all disposable stands at EMEA events by 2024. Better Stands also shows how sustainable business can be better business too. Reusable structures not only reduce waste, but they can reduce the time it takes to construct and take down stands, reduce the cost

of design and construction and allow for investment in higher quality and more successful stands. All kbb Birmingham exhibitors are encouraged to either reuse or recycle at the end of the show, to help create a more sustainable event.

The Used Kitchen Company (TUKC) will once again be partnering with the event to help exhibitors sell their displays ahead of the show to encourage a more sustainable event, and to make a valuable contribution towards recycling within the kitchen industry.

INNOVATION AWARDS

March 2024 marks a decade of the kbb Birmingham Innovation Awards. Now in its tenth year, the Innovation Awards, in partnership with Blum, will be back to highlight the most creative and ground-breaking solutions from brands in the sector. Areas of recognition include new methods and ideas or products that demonstrate innovation. The judges have been announced, check out our esteemed panel: https://www.kbb.co.uk/en/visit/innovation-awards.html?utm_source=third-party&utm_medium=display&utm_campaign=nam24kbb-zg-antony-deliverables

HOW TO DESIGN A LUXURY BATHROOM WITH LAMINAM'S SUPERIOR NATURAL PORCELAIN SURFACES

When it comes to designing a new or renovating an existing bathroom, small or large, creating a luxurious and indulgent space for rest and relaxation is often top of mind.

In order to create such an environment, it's important to select the right materials, colours and products that not only are visually pleasing, but are moisture resistant, too. Superior natural porcelain surfaces by one of the leading surface brands for architecture and design projects, Laminam will elevate even the simplest or smallest bathroom space into something opulent and spa-inspired, while offering peace of mind thanks to their extraordinary technical properties and excellent sustainability credentials.

Laminam's marble-look and stone-inspired superior natural porcelain surfaces are perfect for walls and floors, shower cladding, countertops and vanity units, creating an exclusive spa look and feel of natural marble or stone without the price tag and maintenance to match. Paired with chunky double vanity units with dual basins, calming and tranquil colour palettes in monochrome or earthy tones and a dash of nature by bringing the outside in with plants that thrive in humid environments, they can help to bring together even the most ambitious interior design. Laminam can also be used to create a statement wall behind a freestanding sculptural bath, a seamless flow between the bedroom and ensuite or a luxurious walk-in wet room as an addition to a main family bathroom.

According to Trend Bible, "the importance of creating bath and

Laminam Surfaces - IN-SIDE Series - Terra di Matera {back wall and flooring} and Terra di Saturnia {bath and shower wall}

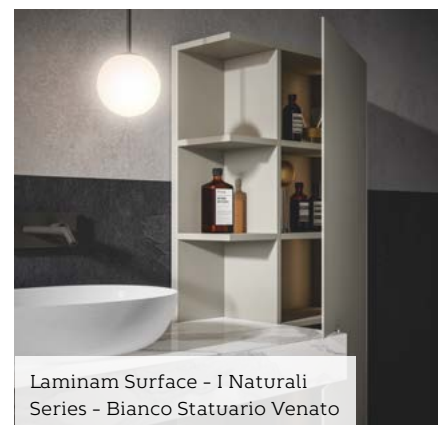

Laminam Surface - I Naturali Series - Emperador Extra

shower spaces that promote positive wellness experiences for not only body but also mind and soul will increase, as householders will be actively seeking solutions that establish a balanced mood." It adds that a desire for self-expression is also important, "which manifests in an increased willingness to explore

and experiment with new eco-friendly materials, fresh colour combinations and statement structural pieces."

Porcelain surfaces are becoming an increasingly popular choice for the bathroom, as it's durable and hardwearing as well as water and stain resistant and very rarely scratches or marks. With Laminam surfaces, they can be used for everything from walls and floors to cladding and countertops. Its porcelain slabs can be used horizontally or vertically, as bookmatched patterns and are

Laminam Surface - I Naturali Series - Bianco Statuario Venato

both stylish and practical with an authentic Italian look. It also allows for seamless continuity with no visible joins, which is also ultra-hygienic, as there is nowhere for germs or bacteria to hide, also making cleaning between the minimal grout lines an easy task.

Laminam porcelain is incredibly sustainable, containing up to 60% recycled materials, while 100% of the water used is fed back into its production and 95% of its raw waste is recovered. Laminam also pursues sustainability in all

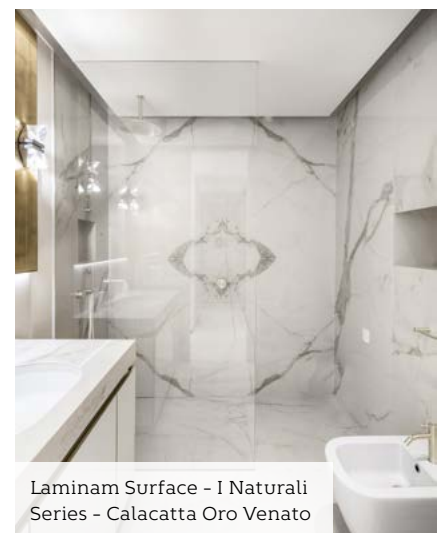

Laminam Surface - I Naturali Series - Pietra di Savoia

Laminam Surface - IN-SIDE Series - Pietra Piasentina Taupe

assets of its business, along with undertaking various activities each year to stay true to its company values. The Italian manufacturer is in no short supply of certifications, with an impressive collection that cements its promises and paves the way for its future vision. These certifications are third party proof of its unwavering commitment to sustainability, translating its objectives into real change. Its latest achievement being the extension of its EPD Certification* to all products. Moreover, Laminam has historically been involved in leading architectural projects around the world, which has now resulted in the company being a privileged partner for zero-impact projects.

MINIMAL APPEARANCE, MAXIMUM PERFORMANCE

Built-in extractor hoods deliver the clean uncluttered look and the efficient use of space that homeowners are increasingly looking for.

They provide an understated and powerful answer to cooking requirements and, being elegantly concealed within the kitchen cabinetry, are often the choice for open plan living or other kitchens with a minimalist style.

Elica offers a range of high-performance built-in models with extraction rates of more than 600 m³/h, whilst maintaining low noise levels. Many models are very slim, making them ideal for UK specification cabinets and come in a choice of stainless steel, soft black and white glass finishes to blend in even more with the cabinetry. They offer super easy installation in either duct-out or re-circulating mode.

New to the Elica range is SLEEK 2.0 ADVANCE, with Elica's Airmatic function that uses smart sensors to monitor air quality and set the most suitable power level even when you are no longer cooking. This provides the optimum balance between performance, energy efficiency and low noise levels. Available in 60cm and 80cm widths, it is rated as Energy Efficiency Class A with a maximum airflow of 690 m³/h. The LED lighting comes with a dimmer as well as Elica's "Tune White" feature so homeowners can adapt the intensity and the warmth of the light to create the desired atmosphere and match other nearby lighting.

The Elica BOXIN range is ideally suited to "continental" style cabinets without cut-out bases.

The units disappear completely, effectively replacing the bottom of the wall unit. Within the BOXIN range are four models. All available in 60, 90 and 120cm sizes. BOXIN LUX is a powerful and competitive entry level model. BOXIN HE has a very high performance and perimeter aspiration. Where condensation is a problem there is BOXIN DRY and BOXIN Advance has the highest performance and AIRMATIC function.

And for customers on more modest budgets Elica offers the FOLD and ERA ranges of extractors both of which come in multiple versions with different powers and a range of finishes including stainless steel and soft black.

SLEEK ADVANCE HOOD

HIDDEN POWER FOR ALL-DAY CLEAN AIR

Those who have a great power do not need to show it, they prefer to keep it concealed. Just like Sleek Advance: a hi-tech hood that automatically eliminates cooking odours, clearing the room from unpleasant smells and harmful agents all day long. Hidden in your kitchen cabinets, this built-in hood will be discreet, blending in with your décor and your unique style. Unleash your creative power, start cooking.

CROWN IMPERIAL: FAMILY KITCHEN INSPIRATION

The kitchen is the heart of the home and as the new year approaches, it's a great opportunity for customers to start planning their 2024 interior projects.

Crown Imperial offers unrivalled access to a versatile choice of flexible furniture configurations, including a host of modern and classic styles to personalise to everyone's needs.

Perfect for modern lifestyles, Rimano is designed with multi-functional zones for cooking, preparation, and accessible storage. The soft curved central island is ideal for families with young children, featuring a low informal workspace to keep a watchful eye whilst making meals or supervising homework. The open plan kitchen layout is styled

in a timeless pale grey and features organised interior storage for the ultimate clutter free look.

The new Uno collection offers a contemporary selection of nine subtle shades, presented here in Uno Taupe and Textura Taupe Oak, a perfect pairing of tone and texture. The sleek family kitchen showcases stylish twin islands and incorporates Crown Boxworks open storage for easy access to kitchen essentials. Tony McCarthy, Commercial Director of Crown Imperial comments on the latest design trends, "Twin islands are a great choice to create a truly 'social' kitchen for all ages, allowing the chef to effortlessly work between

the zones, yet still socialise with the family and enjoy meals together."

Crown Imperial offer a furniture solution across the entire kitchen, living and bedroom spaces to create a seamless theme, with an array of stylish finishes and colours to suit any taste and budget.

FIRED EARTH TRADE JUST GOT EVEN BETTER...

For more than 40 years, Fired Earth has been at the forefront of interiors for both homeowners and professionals alike. Now - with a revamped trade programme with tiered discounts, an increased free sample allowance and extra savings on sale prices - working with Fired Earth just got even better.

The Fired Earth trade programme is designed to give you - and your clients - the very best of Fired Earth in an easy, timely and helpful manner. Trade discounts are available on all products in the bathroom, tile and paint ranges and bespoke items can be sourced too. One-off discounts are also available on large orders.

You can use your trade discount in-store, where you'll have a dedicated member of staff who will be able to help every step of the way. And from the new year, you'll also be able to use it online on our new, dedicated trade website.

And the programme is open to design professionals, including architects and interior designers, property developers, decorators and specifiers.

Fired Earth is well-recognised by consumers and is a much-loved brand. The company's stores are designed to offer a great space in which to discuss projects with clients and the in-house design team can work with you to find products that are perfect for your scheme.

For decades Fired Earth has worked to turn interior design dreams into reality. To create the kind of layered interiors the company is known for it's important to get the foundation

just right. That's why each item in the company's carefully curated tile range has been chosen for its quality, craftsmanship and design.

The same is true of its bathroom ranges - many of which are made here in the UK - and, of course, the considered paint collection, which has brought together every colour you'll ever need.

Innovation, too, is important. It's why Fired Earth is always looking for suppliers who offer cutting-edge solutions to the issues of the day.

With a range that takes in everything from hand-crafted artisan designed tiles through to large-format styles in practical porcelain, Fired Earth has every base covered for projects large and small.

Plus, with exclusive designer collections designed in

collaborations with renowned names in the interior's world, there really is the perfect tile for every home. Designers such as Kelly Hoppen and Nina Campbell, as well as Designers Guild and Bert & May, have worked with Fired Earth to create stunningly designed patterned tiles and plains in charming and usable shades.

All in all, Fired Earth is a great addition to the portfolio of any design professional.

WALL & FLOOR TILES • BATHROOMS • PAINT • DESIGN SERVICE

AN APARTMENT OF 675 M², IN SÃO PAULO, BRAZIL, WAS RENOVATED TO ACCOMMODATE A YOUNG COUPLE WHO LIKE ARCHITECTURE AND DESIGN

The 675 m² apartment located in the center of Vila Nova Conceição, in São Paulo, was completely reformed to accommodate a young couple well-informed about the latest news in the architecture and design market.

Located in a building more than 30 years old, the space had 40% of the initial house plan changed to meet the needs of the customers: total integration between the living room/home theater, dining room, and gourmet space without damaging circulation or overloading the space or layout with many parts. For this, they were helped by the architect Andrea Balastreire.

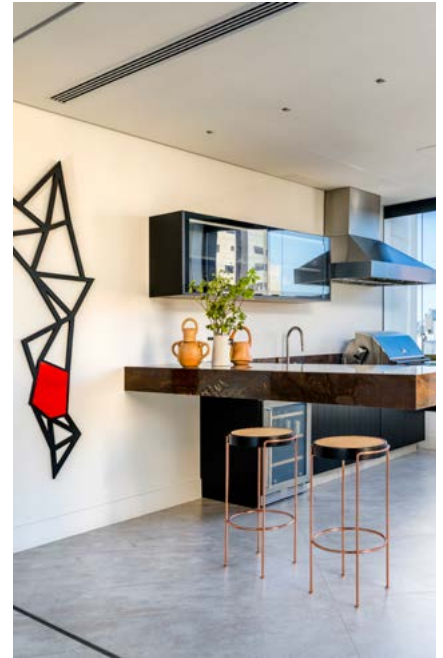

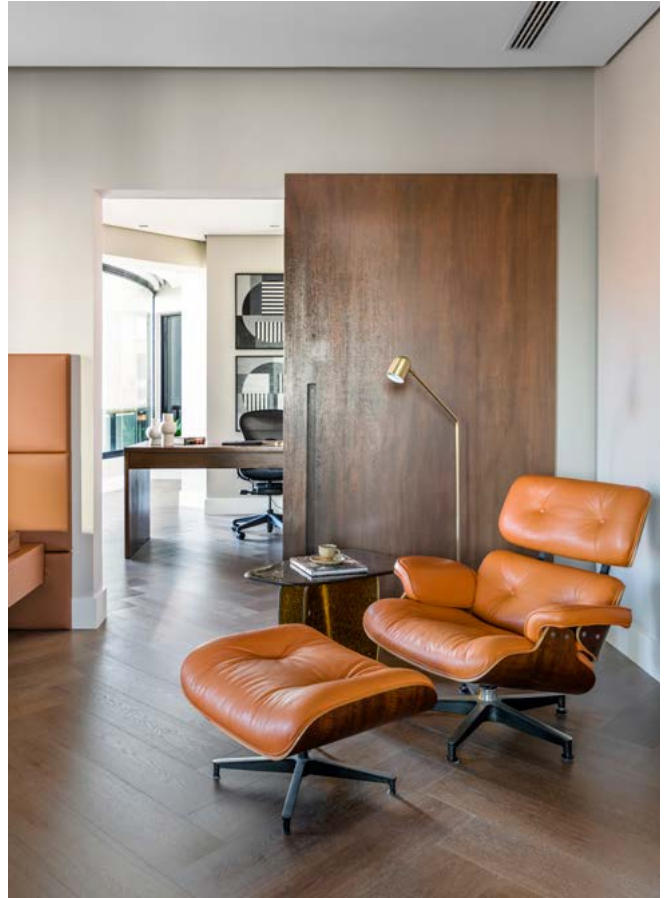

According to this, the living room/home theater is the project's main point. The clients dreamed of having a wine cellar in the apartment, and the solution found by the architect to keep the layout fluid was to adapt the drinks' compartment to the same place as the home theater. So, it was possible to keep a good circulation space and a 360° view of the city of São Paulo.

The use of a neutral background and a few points of color was thought to keep this space cool, clean, and contemporary. The cement floor in the social area was used with the Freijó wood panels so that the environment wouldn't be so cold. One of the highlights of the space is the fireplace covered with a Neolith Sahara Noir.

Since the clients are familiar with the Arq&Decor universe, they wanted the furniture to compose the environment. The living room has tall armchairs by Oscar Niemeyer and Don'do by Frau, as well as works of art by Tomie that complete the decoration of the space.

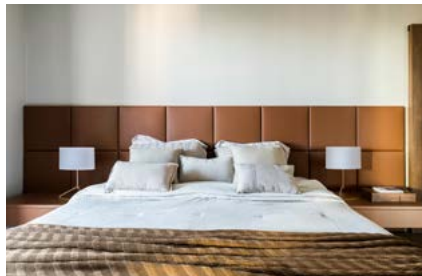

The old kitchen was quite angular, so it was necessary to change all the walls. In this space, the biggest challenge was organizing the furniture, so it wouldn't compromise circulation. According to the customers' wishes, an island was built, which also works as a point of color in the environment, and a pantry with a round table and four chairs.

The lighting, executed by Labluz, was punctuated according to the layout and some walls and pieces. In the living room, for example, she followed the air conditioner to make it as light and discreet as possible.

Ricardo Pessuto signs the landscape design, created based on the curved lines in the building's architecture. The choice of aromatic species was one of the customers' wishes, which was met through the creation of a vertical garden executed in planters adjusted to the wall in the same color as the Dondo armchair. As for the landscape design, we have the cachepots, which were originally created by Ricardo Pessuto.

ABOUT ANDREA BALASTREIRE

Andrea graduated at Faculdade de Belas Artes in São Paulo and has been working with architecture and design for more than fifteen years. With an original style, her pieces prioritize the customer's necessities and preferences, connecting comfort and beauty, allies of a unique design and style.

With her specialized team, she turns wishes into reality, attending to all the technical requirements and providing cost-effectiveness. Her projects charm customers and are featured in many respected magazines of architecture and design. Andrea considers each project unique and exclusive.

basalte

design for your intelligent home

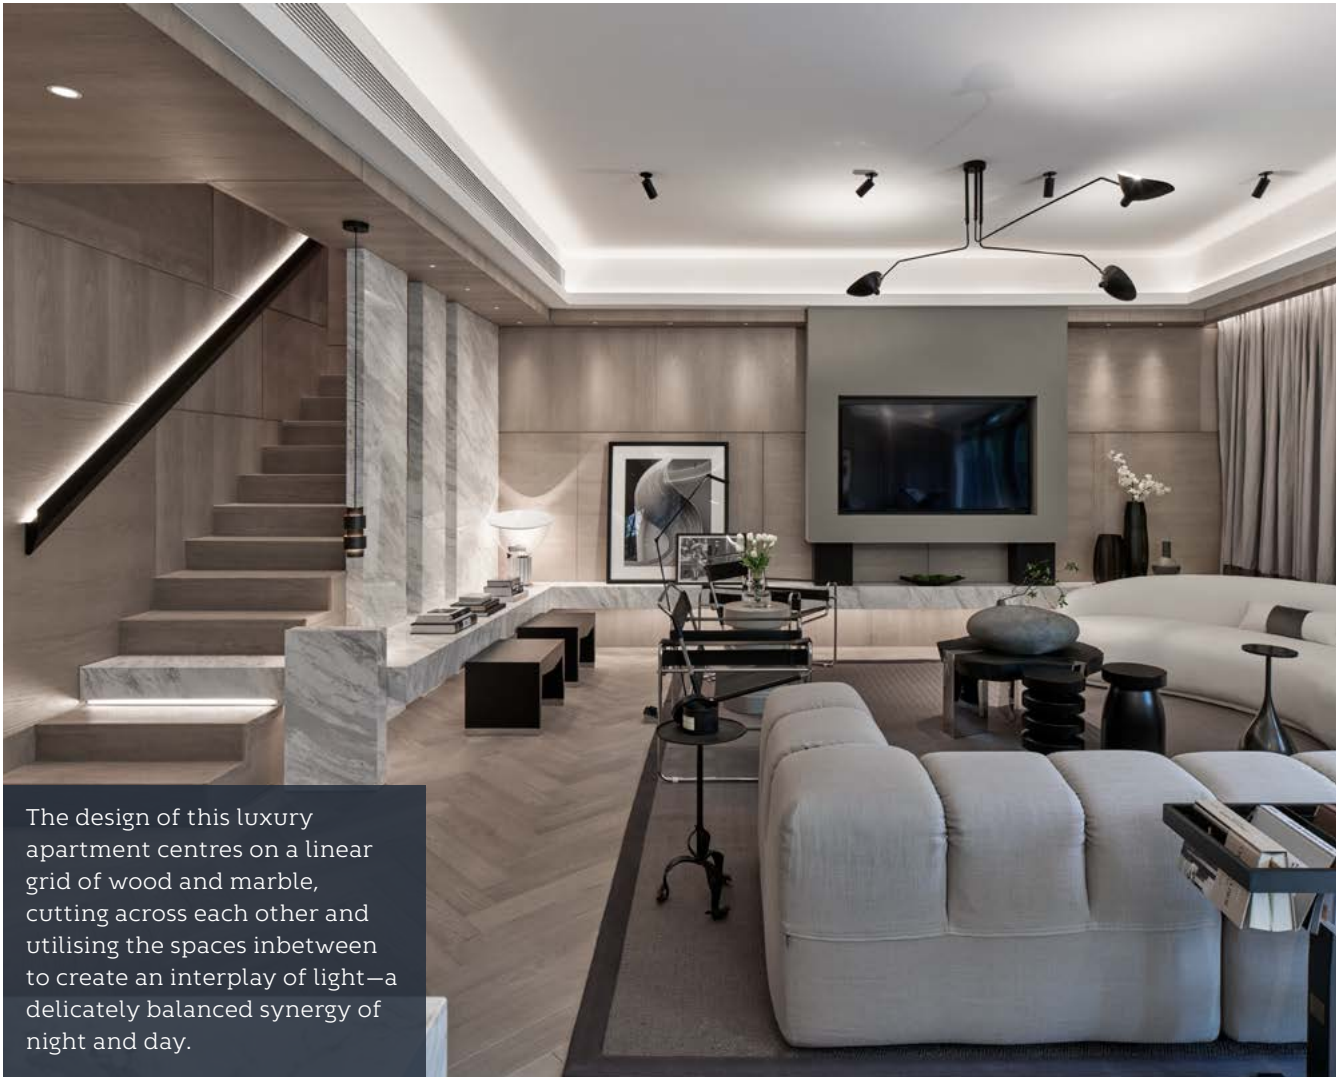

At the slightest touch the room dims to the right scene. Your favourite music starts playing, the temperature rises and the curtains open. The ultimate home feeling. Control everything with your design products in premium finishes like brushed brass and bronze, who complement each other and your interior design.

basalte.be

READY TO GO?
SCAN ME

The design of this luxury apartment centres on a linear grid of wood and marble, cutting across each other and utilising the spaces inbetween to create an interplay of light—a delicately balanced synergy of night and day.

KELLY HOPPEN INTERIORS KAI TAK PROJECT

Timeless neutrals and layered textures run throughout, with an elegant monochrome palette, luxurious Italian marble and eye-catching modern fixtures. Maximising the abundance of natural light, the concept plays with contemporary shape and form; step ceilings and walls cast shadows, adding dimension and depth. The overall result is a calming, sophisticated and multifunctional space, perfect for both indulging in moments of quiet reflection as well as for evenings spent entertaining guests.

Sumptuous lines and chic furnishings make for an inviting living room bathed in light. Curated combinations of sculptural tables and chairs separate the space into zones whilst maintaining a natural, effortless flow throughout. Curved sofas contrast with angular benches and plinths; subtle biophilic touches of floral arrangements, potted plants and natural art soften the overall feel. Distinctly modern additions—from central double-sided fireplaces to abstract lighting and fixtures—create a compelling contemporary atmosphere.

The sharp black line of the banister ascends the staircase, leading to the master bedroom with its light neutral palette accented by textured fabrics in Kelly's signature taupe. Hidden lighting and inset mirrors

brighten and reflect, with warm hidden lighting along the sleek, curved base of the bed and hanging glass droplet lights illuminating the bedside. Light beige oak cabinetry lines the walk-in wardrobe with a bright, window-facing marble vanity.

In the master bathroom, ceramic seashells line the cabinetry as marble coalesces with soft beige and cream for a total sense of peace. Elegant simplicity reigns in the designated study space, with underlit shelving and dark leather desk furniture. The junior bedroom blends functionality and style: the sage-lined glossy wardrobe conceals a desk area, with a folded-effect wooden stool and graffiti-style typographic artwork to add a playful touch.

MU ARCHITECTURE **SUITE 201**

A FAMOUS HISTORICAL SITE

This captivating residential suite, envisioned by MU Architecture, derives its inspiration from the storied past of its location. Formerly occupied by Joe Beef, this erstwhile inn warmly welcomed laborers and seafarers from the bustling Port of Montreal during the mid-19th century. Revered as the “Son of the People,” this benevolent innkeeper transformed his tavern into a haven of solace and vibrant camaraderie. Suite 201, built upon these historical foundations, endeavors to embody a welcoming and convivial atmosphere.

Upon stepping inside, a vestibule grants a tantalizing glimpse of the expansive communal area through a subtly smoked glass panel. A serene ambiance unfolds within. The intricate woodwork and weathered

stone walls serve as evocative time capsules, whisking visitors away to a bygone era. Evidently, this space has admirably preserved its essence, resonating with a soulful connection to its heritage.

A PRIVATE TAVERN

Centered around the concept of a tavern, the living room, artfully divided into three distinct zones, each meticulously curated with its unique ambiance and color palette, seamlessly integrates with the kitchen, ingeniously transformed into a functional service bar. This architectural fusion creates an immersive experience that effortlessly transcends the Suite's residential essence. To elevate this concept further, the traditional dining area is artfully omitted.

The expansive open space bathes in natural light streaming through grand windows that offer a picturesque view of Montreal's historic old port. With a simple switch, a polarizing film cleverly renders the window glass opaque, ensuring absolute privacy. The authentic stone rubble walls, echoing the area's rich heritage, evoke a sense of history. Meanwhile, the wood-paneled ceiling exudes a refined and subdued ambiance, reminiscent of the architectural style prevalent during that era.

Exquisite craftsmanship is evident in the intricate details, notably the composition of the coffers seamlessly integrating two distinct black oak finishes. These elements artfully anchor the suspended shelves, showcasing the meticulous attention to architectural finesse and design ingenuity.

THE EBONY BLACK KITCHEN

Continuing the subdued ambiance, the kitchen and bar incorporate more dark woodwork, this time in a deeper shade. The black-stained wood, however, allows the grain to subtly emerge, imparting warmth and depth to the material. For a fully dramatic effect, black quartz countertops and metal panels, matching the color scheme for the hood and shelves, complete the ensemble. The metal shelves discreetly integrate ambient lighting, the source of which remains imperceptible. To counterbalance the dark and stark appearance of the kitchen, subtle curves and rounded corners introduce a softness to the volumes and facilitate movement. A brass footrest and faucet punctuate the space with an historical yet chic gleam.

A HIDDEN WELLNESS

In addition to concealing the laundry room behind one of the doors, another secret door unveils an entire relaxation area. Spa facilities, a steam bath, shower, and relaxation platforms create a perfect haven for unwinding. Indirect lighting and ceramic surfaces resembling dark stone transport us to a serene space that seems almost carved into the rock. Smoked glass panels and iroko wood accents further contribute to this tranquil and soothing ambiance.

THE MASTER QUARTERS

Stepping through yet another concealed entrance, a hidden doorway opens into the dressing area adjoining the master bedroom. Ingeniously veiled behind a mirror, this portal leads to extensive walls adorned with meticulously crafted wood paneling, cleverly concealing abundant storage spaces and a discreet emergency exit. The allure of smoked glass partitions guides one towards an intimate bathroom adorned with natural, intricately detailed finishes, evoking an entrancing and soothing atmosphere.

The sleeping quarters not only house a second bedroom but also feature an additional shared bathroom. Exiting this sanctum, one seamlessly re-enters the living room, completing a labyrinthine yet fascinating layout. This architectural design imbues secrecy and functionality, harmoniously blending functionality with an aesthetic allure that captivates the senses.

THE REFINEMENT OF DETAIL

Crafted with meticulous precision, this project harmoniously integrates and weaves within an ancient historical building, placing intricate details at its core. Every arrangement and connection were meticulously designed to render the space elegant and refined. The selection of furniture, integration of artworks, and decorative elements breathe life into the surroundings, evoking memories of the legendary and unforgettable evenings from the era of the iconic Joe Beef.

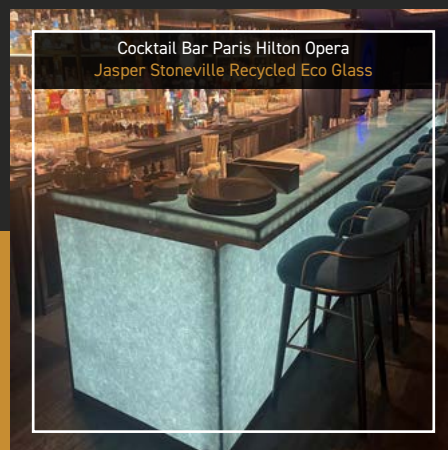

Recycled Eco Glass

A sustainable and innovative surface material for interior design and architecture

- sustainable & eco-friendly, being made of recycled glass with no adhesives or resins used
- cost-effective compared to other high-end materials
- durable & low maintenance
- translucent, has a 3D effect and works particularly well with LED lighting
- versatile and has been used for bars, countertops, worktops, wall panelling, flooring, swimming pools, furniture

Stoneville Recycled Eco Glass comes in slabs (large panels) which we use to cut to size and/or fabricate finished products, such as worktops, vanities, etc. We also do installation for both commercial and residential projects.

Our projects speak for themselves. Below are just three examples.

Call us on **020 8560 1000** or email at info@stoneville.co.uk to discuss your potential/current projects.

Further details and pictures of various other projects can be found on our website

VICAIMA GROUP REAFFIRMS ESG COMMITMENT AND SETS TARGETS DRIVEN BY THE SUSTAINABLE DEVELOPMENT GOALS

The Group shares its strategy, practices and objectives within the scope of the ESG criteria, and its alignment with the 2030 United Nations (UN) Agenda.

Driven by the motto “Together We Build the Future”, Vicaima Group has just presented the sustainability strategy that will guide the Group’s performance until 2026. With a transversal approach and integrated ESG criteria, the Group is reinforcing its responsibility and ambition to continually reduce the impact of its activity, as well as contributing to a more sustainable construction industry in favour of a better planet.

Focusing on transparency and the involvement of all stakeholders in this important mission, the Vicaima Group shares its strategy, implemented practices and

goals within the scope of the ESG (Environment, Social and Corporate Governance) criteria, as well as its alignment with the SDGs (Sustainable Development Goals), aimed at developing sustainable, transparent and socially responsible business.

In the words of Arlindo da Costa Leite, Chairman of the Board of Directors of the Vicaima Group, “we’re making a long-term commitment which reflects our desire to integrate and ensure the alignment of the Vicaima Group’s strategy with the sustainable development agenda. We see this moment as an important and transformative milestone for our business, and it’s not merely meant to be a simple description of initiatives, goals, objectives or wishes.”

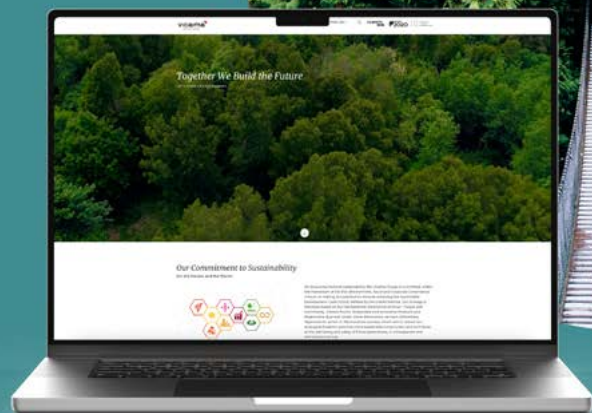

The reduction of greenhouse gas (GHG) emissions, the adoption of

circular economy principles, along with the optimisation of materials and resources, minimising waste and residues, are now seen by the Vicaima Group as key innovation catalysts, based on a production model with a strategy to create value with responsibility.

SIGNIFICANT REDUCTION IN EMISSIONS LED TO INCREASED EFFICIENCY

No ano de 2022, o Grupo Vicaima alcançou uma redução de 15% do Índice de emissões tCO₂e /vendas, refletindo uma diminuição absoluta de 578 tCO₂e, mesmo tendo sido registado um aumento do volume de produção.

Together
We Build
the Future

Vicaima's Commitment
to Sustainability

In 2022, the Vicaima Group achieved a 15 % reduction in the tCO₂e/sales emissions index, reflecting an absolute decrease of 578 tCO₂e, despite the increase in production volume.

These figures are the result of the implementation of energy efficiency projects and other specific initiatives aimed at reducing GHG emissions, such as investment in more efficient production equipment, production of renewable energy for self-consumption or focus on electric mobility.

All these policies and activities are part of a holistic perspective for the Organisation, based, according to the Chairman of the Board of Directors, on a “growth strategy founded on a path of innovation and differentiation, seeking a balanced social, environmental and economic dimension”.

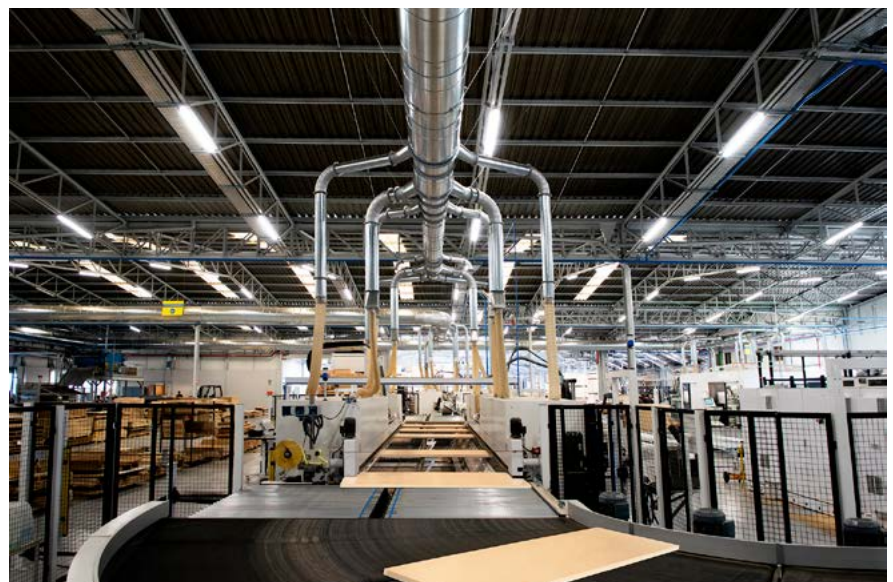

FOUR FOUNDATION PILLARS OF AN ONGOING STRATEGY

The Vicaima Group has identified four fundamental pillars in its strategy for integrating ESG issues into its business: People and Community, Climate Action, Sustainable and Innovative Products and Responsible Business.

These aspects represent the Group’s focus and represent the relevant material topics in the ESG sphere resulting from a consultation process with internal stakeholders and from the definition of the Materiality Matrix.

Based on its own projects and the association with partner organisations, the Vicaima Group has been reinforcing its commitment to solidarity, environmental, safety, health and well-being initiatives, as well as to valuing Human Capital. In this last sphere, it is worth highlighting the implementation of several projects aimed at qualifying and diversifying employees’ skills, as well as synergies with the educational and academic world, with a view to promoting and enhancing youth employment.

These are priorities reflecting the Vicaima Group’s identity, given that, as Arlindo da Costa Leite points out, “our path is based on a strong corporate integrity, entrepreneurship, rigour, innovation and social commitment, translating into a combination of human capital and business development”.

THE ART OF TRANSFORMING AND ADDING VALUE TO WOOD

“The Vicaima Group, with a proficiency spanning more than 60 years, has always been strongly committed to the innovation and development of efficient market solutions. This vision stands in unison with the sustainable use of wood, which is at the heart of our existence,” notes Arlindo da Costa Leite.

Currently, the Vicaima Group is amongst the largest private economic groups in Portugal, operating in over 36 markets worldwide and with a direct presence in Spain and the United Kingdom. Employing more than 800 people, it continuously strives to strengthen its commitment to technology, organisation, human resources and the environment.

TOUCH

IRONMONGERY LTD

www.atouhofbrass.co.uk

210 Fulham Road, Chelsea London SW10 9PJ

CELEBRATING 40 YEARS

One of London's leading Architectural Ironmongers

Originally called "A Touch of Brass", TOUCH changed their name in 2003 in reaction to advancing market changes in architectural Ironmongery to reflect the broader range of products and finishes that they sell.

In fact today Touch supply 20 different finishes including Brass, Satin Brass, Polished Chrome, Polished Nickel, Satin Nickel, Copper, BMA, Antique Brass, Black, Pewter, Ceramic, leather, Stainless Steel, Satin Stainless Steel, Gun Metal & 4 different shades of Bronze and the list keeps growing. Whatever finish you require, Touch can help you get the right look.

Touch occupy their recently refurbished showroom at 210 Fulham Road, Chelsea, where they stock and display a vast range of their 5,000 products. With a customer base including Architects, Interior Designers, Builders and private Individuals who are interested in the quality end of the Ironmongery market, the company also have a healthy export market to all corners of the world, namely the Middle East, Europe and the Americas.

Touch Ironmongery's owner and founder, Bill Benham, has 42 years' experience in the Ironmongery trade, as does his colleague Jim Haselup. Saleem Qureshi is the newest member of our team and has 21 years' experience, meaning their knowledge is unrivalled in this industry.

The range of products supplied by Touch date from circa 1640 French (Louise XIV) and cover all subsequent periods (Georgian, Edwardian & Victorian), Art Deco and contemporary pieces also make up the product ranges.

Touch showcases the very best of British manufacturing; the best ranges are still produced in the Midlands by craftsmen in factories dating back 200 years or more.

Touch Ironmongery have recently become suppliers for **Designer Doorware (Australia)** Who have beautiful products with a cutting edge design Metal, Wood and concrete. We also have the exclusive rights to sell the **Olaria (Barcelona)** range in the UK.

Olaria make all our bespoke products, they have incredible levels of workmanship.

Touch also sell European manufactured goods which are considered to be of a very good quality.

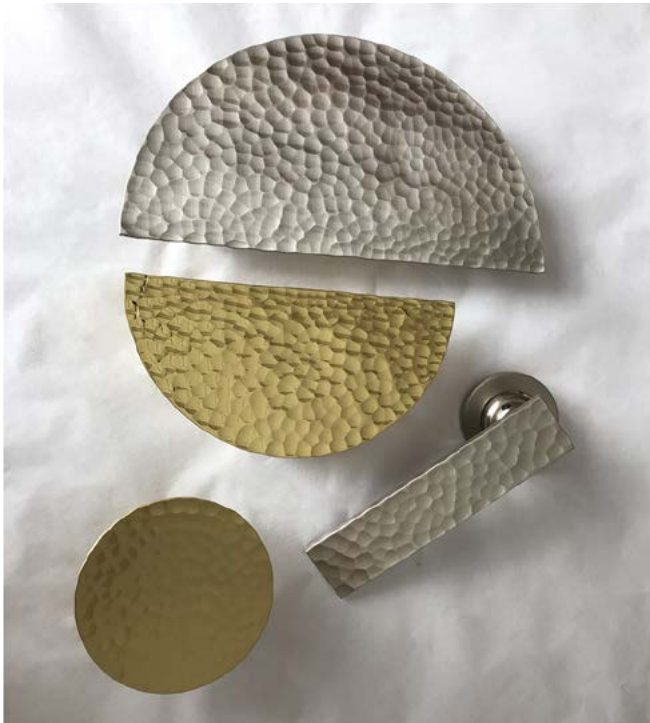

With trends continuously evolving new and innovative products are constantly under development.

Touch understand that keeping up with the fashion-shifts is imperative in order to provide every customer with the best solution for their requirements.

Ironmongery can be a difficult and complicated aspect of a building project, as a result Touch aim to take this awkward aspect and make it user friendly and clear to understand by offering an on-site service where they carry out a detailed door by door, window by window, room by room Ironmongery schedule, highlighting all requirements and identifying all requirements.

Restoration is a large part of the business Touch will undertake complete Ironmongery refurbishment projects, and can restore old paint covered door furniture to their former glory, looking as good as new again at a fraction of the cost to replace.

For more information about Touch Ironmongery or to arrange a showroom visit please call 0207 351 2255 or alternatively visit www.atouhofbrass.co.uk

BRITISH & EUROPEAN MANUFACTURERS SUPPLYING THE FINEST QUALITY IRONMONGERY

Touch combine traditional skills with modern manufacturing techniques to produce the most beautiful, quality fittings, built to stand the test of time.

As well as specialist bespoke items, Touch supply over 1000 products, available in 23 different finishes to furnish high end residential and commercial properties, royal palaces, government houses, historic castles and stately homes.

AWARD-WINNING INTERIOR DESIGNER OLIVER STEER SHARES **TOP TIPS FOR ELEVATING HOME INTERIORS**

Award-winning Interior Designer shares professional-approved design advice to elevate home interiors.

Oliver Steer is firmly established as one of the UK's leading interior designers, from creating award-winning exquisite interiors and properties to catering to a discerning and exacting client base, he offers an unrivalled bespoke service that allows no compromise.

A graduate of Architecture and combined Business Studies, Oliver Steer is committed to British craftsmanship and excellence in the delivery of bespoke, considered solutions for his clients. Oliver's passion and expertise guide his team of trusted craftsmen, artists, and specialist contractors in the pursuit of absolute interior design perfection for discerning homes and businesses.

Honoured with Northern Design Awards in 2015 and 2016, Oliver is now nominated for two categories at the Northern Design Awards 2023, 'Hotel/Lodging' and 'Conversion and Redesign/Repurpose'.

Known for embracing a fusion of traditional and contemporary elements, Oliver finds joy in the harmonious integration of antique furniture and art with modern design. This not only enhances the visual appeal but also prolongs the life of these pieces, turning them into distinctive features within the overall design. Oliver's personal style embodies a timeless, unique, and individual approach, striving

to capture the essence of clients' personalities and lifestyles.

Collaborating closely with his clients throughout every step of their journey, Oliver oversees not only the creative process but also the practical considerations and draws inspiration from various sources, encompassing the creations of esteemed interior designers like Kit Kemp, John Stefanidis, William Yeoward, Alexa Hampton, and Bunny Williams.

OLIVER STEER'S TOP INTERIOR DESIGN STYLING ADVICE:

1. Avoid cookie-cutter off-the-shelf furniture

Oliver says: "When it comes to furnishing a space, I always aim to avoid cookie-cutter, off-the-shelf furniture. Generic, mass-produced pieces lack the uniqueness and character that can truly elevate a room. I love to discover one-of-a-kind, distinctive furniture that tells a story and adds personality to the space."

2. Don't play it safe, be bold

Oliver says: "Playing it safe with bland, uninspiring colour palettes is not my style. I'm all about embracing the unexpected. Selecting bold and exciting colours is my way of infusing energy and vibrancy into the design, making it an unforgettable experience for my clients."

3. Mix and match styles, textures, and materials

Oliver says: "I'm not a fan of specifying complete decor sets that make a room look like a predictable catalogue showroom. My passion lies in the art of mixing and matching different styles, textures, and materials. This approach creates an eclectic and captivating atmosphere that keeps people engaged and intrigued."

4. Explore unconventional lighting solutions

Oliver says: "Dull and monotonous lighting plans are a designer's nightmare. I thrive on the creative challenge of thinking outside the box. My goal is to explore imaginative and unconventional lighting solutions that can transform a room into a magical and inviting space, where light becomes an integral part of the design."

5. Stay original

Oliver says: "I believe in breaking free from design clichés and overused trends. Staying true to originality is my mantra. I take pride in introducing fresh and imaginative design concepts that spark curiosity and conversation, ensuring that every project I undertake is a testament to innovation and creativity."

CHIC TEAK

THE TRUE NATURE OF DESIGN: HORM PRESENTS THE AIRA LAMP DESIGNED BY MARCANTONIO

Horm, a leading luxury furniture company that has been combining international aesthetics with influences from the world of art and culture since 1989 to create luxury designer furniture, brings the style and elegance of a timeless Made in Italy design into residential spaces, telling the true nature of design.

Exhibited "in a whisper" at Marmomac 2022, was officially presented by Horm for Salone Internazionale del Mobile 2023, the Aira lamp by Marcantonio: with Aira by Horm, Nature enters homes and gives a new image of Beauty, breaking the classic patterns of luxury.

"In many cultures, the branch of a tree is always loaded with very important symbolic values related to Nature, man, and spirituality. The idea of turning a branch into a light source stems from the desire to amplify this positive valence and create a functional object that at the same time can act as a stimulus for the soul," says the designer.

The tree in mythology, religions, and common knowledge represents the symbol of life, the world, and knowledge.

For the Celts, the tree branches represent the web of life and its knots the events that mark it: just like the tree, humans must face numerous obstacles in their daily lives and overcome them in order to grow, to improve.

Marcantonio is an artist before he is a designer: objects must dialogue with people, communicate, not just be designed for a function.

Thus the artist/designer investigates the relationship between humans and their environment, questioning the concept of what is original.

The Aira lamp breaks into the domestic walls and resonates with the deepest part of the individual; it becomes a symbolic representation that allows one to connect with the archetypes and spiritual energies proper to the natural world, proving to be a source of stimulation for human imagination and knowledge.

Now more than ever, we need to look to renewables sources for our heating. Self-sufficiency without the grid is the only way forward.

STYLE AND PERFORMANCE

With gas and electricity costs at an all-time high, it is vital that any consumer looks to be more ecological to avoid the economical increases we are facing! Let's avoid relying on an electricity source and look to our past and rely on a whole home heating solution fueled purely on locally sourced wood. Additionally, our Ecco Stoves emit less particulates than that of an electric generation currently!

Our wholly British made Ecco Stove is a ceramic wood burning stove that is able to heat a 4-bedroom house from as little as 7kg of locally sourced wood (model dependent). Made with largely from Silicon Carbide the stove, Ecco Stove is

unique in design and ability, one stove is able to heat as much as the whole home without the need for radiators and ducting. Current Eco Design Standards 2022 stoves are the cleanest in combustion ever. Our Ecco Stove range more satisfies these standards! Not only do you benefit from more ecological whole home heating, we have up to 5 models to choose from and a broad range of beautiful colour choices. We have an extensive range of optional extras to choose from to make your Ecco Stove fit your lifestyle and needs.

Don't rely on monopoly industry prices, an efficient wood burning stove can interface with existing

new technology heating systems whilst maintaining home comforts and indeed heat the whole home without the support of other technologies or reliance on the grid. We implore any consumer to challenge the norm of gas central heating and look for a renewable, self sufficient and more economical solution to heating their homes!

Don't take our word for it, get in touch today to learn more about how an Ecco Stove can change your home.

7 TRANSFORMING BATHROOM HABITS FOR A CLEANER, GREENER TOMORROW

Introducing Chakow where we're flushing away Britain's loo-paper love affair, one bathroom at a time! In the land of tea and queuing, there's a quirky little quirk: our undying devotion to toilet paper. Enter Chakow, the bathroom game-changer. Chakow isn't just a bidet; it's a style statement. Designed with aesthetics in mind, our bidets are as easy on the eyes as they are on your behind. At Chakow, we're on a mission to transform your daily routine into an eco-friendly practice. Our bidets are more than just a comfortable cleanse; they're a step towards sustainability. By ditching the loo roll, you're saving trees and water - and let's be honest, probably your dignity too. We believe everyone deserves a bit of bathroom luxury without breaking the bank. That's why we're making Chakow affordable, so you can join the bidet brigade without splashing too much cash. So, Britain, it's time to bid farewell to the paper and hello to a cleaner, greener future.

8 SOFT, AMBIENT LIGHTING AT TATE BRITAIN

Tate Britain is in the London borough of Westminster, in an area called Millbank. With the help of a generous donation from Tate himself, the gallery was built and opened in 1897. Today, the gallery serves as an important cultural institution, contributing to the appreciation and understanding of the history of British art.

One of the gallery showrooms on the main floor, Duveen Gallery, features luminaires from GVA Lighting, a Canadian-based LED manufacturing company located in Oakville, Ontario. STR9 Lite RGBW luminaires, delivering up to 626 lumens/ft, were chosen for soft, ambient lighting, washing the curved, windowed ceiling in an aesthetically warm glow. These compact and lightweight luminaires were the perfect lighting choice for such a prestigious historical building.

LOVE WILL TEAR US APART? OR WILL THE COMING TOGETHER WILL TEAR US APART?

The fact is that flooring and furniture are foes, not friends. While opposites attract, if you love your flooring, it's best to keep a little distance between them.

At Stroolmount our Protect & Care range of specialist protection features a heart sign. This symbolises the care needed so that when flooring and furniture cosy up together, they don't rub each other up the wrong way: only scrapes, scratches and scars can come of that.

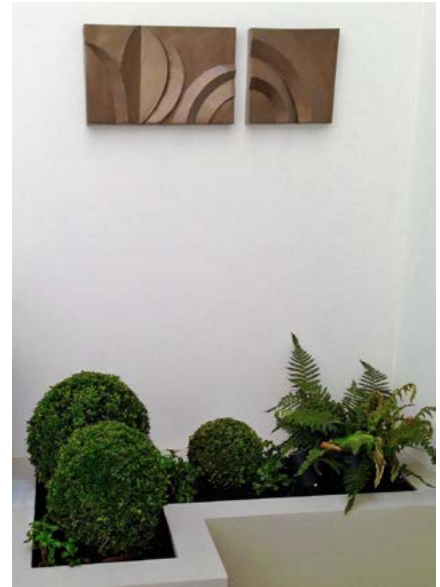

From the best Felt pads to Repair Kits and Radiator Pipe Rosettes, Stroolmount has it all to keep your floor flawless.

Love your floor?

Web: www.stroolmount.co.uk

BOLDSTONE SCULPTURE

Founded in 1998 Boldstone Sculpture has worked with local and international interior and garden designers, architects and property developers. We have worked on large scale projects as well as small individually created commissions for private clients.

Boldstone has created their own original range of designs primarily focusing on wall sculptures with the name of Boldstone Sculpture. We are now in the process of extending our range of art objects to include printmaking as well as photographic prints, high quality Giclee prints and paintings on canvas and board with bronzes in the pipeline!

Inspiration for our artworks comes from the observation of pattern in nature and the interpretation of pattern in the interaction of light and shadow, colour, line, form and texture. Themes are developed using differing mediums and materials expressed in sculpture, drawing and painting.

We like to think that every sculpture and artwork produced by Boldstone focuses on craftsmanship, attention to detail and experimentation with a combination of skill and artistic narrative.

Our artworks are handmade using different materials which allow for individual variation such as a polished sheen, rustic patina, pigments and metallic finishes.

Boldstone's wall sculptures and artworks are adaptable to a multitude of settings, whether that be a modern urban loft, a chic office space, a tranquil residential living room or a grand hotel lobby and spa. They have the ability to transform any environment, adding a touch of elegance and intrigue, leaving a lasting impression on those who encounter them.

Boldstone is committed to sustainability and wherever possible uses eco-friendly materials. We are dedicated to the responsible use of resources and aim to create art that not only enhances spaces but also respects the environment.

Boldstone thrives on bringing a client's unique vision to life. We collaborate closely with clients to create bespoke wall sculptures tailored to specific spaces, themes or concepts. Whether a signature piece for a corporate headquarters or a series of sculptures for a luxury residence we create drawings and storyboards to help work with you to realise your idea.

If you are interested in a private viewing or a presentation or discussing a specific project please email us to start the conversation.

We have been privileged to work with many clients at all scales over the years and enjoy participating in creating artworks suitable for public and private spaces, gardens and interiors.

Our studios are based just outside Bath in Somerset.
