

# 21 Rotations

## 21 Rotations

21 Rotations are, most often, used to set up for the second dodge in a series rather than give space to a dodger because the alley's are already clear. Also, since we don't want to bring another player to the dodge, any rotation that does change the formation from a 21 to a 12, will change it to a shifted 12 set.
