CHAPTER EIGHTEEN

Scouting

OFF-SEASON

We will start in early spring self-scouting ourselves and any opponent that are still on our schedule with the same coaching staff. We only meet once per week with offensive and defensive staffs switching weeks. I do this first because I do not want to meet with position coaches until after the clinic season. Additionally, I may not have all of my staff in place until late April.

For example, my offensive staff may meet every other Monday night for three hours for 10 weeks. We will break down one game per week. This is very time consuming and every coach has a job while watching each play on the projector. We have to be disciplined to not go into lengthy discussions on every play since we have to break down 60 plays and only have 3 minutes per play if we want to end by 9pm. This is a great teaching tool to train your coaches eyes.

- Scout Opponents from Past Season
 - \rightarrow See what they did against Wing T since many of our film of them vs spread is useless.
 - \rightarrow Scouting does not begin the week you play that team. Saves a lot of time during the season.
 - \rightarrow We know what fronts & coverages to rep in Spring & Summer.
- Reaction Diagram
 - \rightarrow Draw what all 22 players did after snap
 - \rightarrow Alignment vs every Formation
- Down & Distance Tendency Chart
 - \rightarrow What Defense they ran for every Down, Distance, Field Position.
- ♦ Notes
 - → Personnel; Scheme; Your Attack

In a perfect world we will have 2 coaches drawing on the Reaction Diagram, 1 coach filling in the down & distance chart, 1 coach taking notes, and a coach running the computer. If I am short coaches, I will bring in next years QB or C to help. The note taker is writing down comments from all the coaches and organizing by play number. Our O-Line coach may see something on play #5 and after a long night will forget what he said about attacking on that play.

REACTION DIAGRAM

Use different colors for offensive and defensive lines. We draw jersey numbers of all underclassmen in off season. (During the season, we draw all jersey numbers, but obviously not the reactions.)

DOWN & DIST CHART

- Front, Blitz, Coverages
- Down & Distance
 - $\rightarrow 1^{st} \& 10$
 - $\rightarrow 2^{nd}$ & Long, Med, Short
 - \rightarrow 3rd & Long, Med, Short
 - $\rightarrow 4^{th} \& \text{Long}; 4^{th} \& \text{Short}$
- Field Position
 - \rightarrow Goal Line, Red Zone,
 - \rightarrow 4th Down
 - \rightarrow Coming Out;
 - \rightarrow Pinned inside 20

PERSONNEL

- Only worry about underclassmen.

GAME NIGHT

Train the eyes of the staff

Our defensive coaches watch their defense.

1 D-Line coach watches D-Line

OLB coach watches LB

WR coach watches coverage

Other D-Line, DB, and DC are talking with pressbox about next defensive series.

POST GAME SCOUT

Every position coach grades their players & post on Monday

Ensures that all coaches are watching film. We do not watch our own film on Saturdays...that is done at home on a coach's own time.

All we do on Saturday from 8am - 1pm is break down the 3 opponent films.

Players love it

Give your position coaches freedom here to grade what they think is important.

COACHES PRACTICE

Our coaching staff has to practice our GAMEDAY roles and sideline communication during off season.

- First 10 meetings we scouted ourselves vs this years schedule (Jan W3 Mar W4).
 - \rightarrow These meetings are a pre-cursor to how we will run our Saturday meetings.
 - \rightarrow One of these meetings we will actually fire up the headsets in the classroom so that we have time to send in for repairs and order parts.
- Our last spring practice is an intra-squad scrimmage in the stadium. Headsets, pressbox, endzone, and sideline video is all used so that coaches & players can get a feel for what everyone's role is.
- Our last August practice is a padded intra-squad scrimmage in the stadium. Same protocol as spring. We repeat all the protocols the following week during our pre-season scrimmage against a different school.
