

Kickback

Kickback

Kickback

Kickback: A pass by a player who tried to drive the ball but was stopped (at the top center of the free throw line) so she pitches the ball to the cutter behind him.

All pitches should be positive

You can see by the areas listed the difference in the negative and positive pitch.

In the negative the ball is thrown on the side where the 4 started

In the positive pitch the 4 crosses the 1 and the pitch is on the downhill side, to where the 4 can catch and head downhill
