

# 12 Rotations

## 12 Rotations

Rotations are most often used to create space for dodgers. Most 12 Rotations will change the formation from a 12 to a 21. To do that, they must have one of the players cut the crease. Coaches can also have an individual player "Clear Out" and get to the middle of the field without forcing the others to rotate. Coaches can also have the off ball group hold.

1

Clear Through - Fill - Fill

2

Center Cut - Fade

3

Fade - Fade - Cut The Middle

4

Clear Out
