

SO YOU WANNA BE AN AGENT?

MODULE 4 || CONTRACTS 101

Contracts Between Players and Agents:

This type of contract should leave no room for misunderstanding. Neither party should be in a rush. When all parties are ready to move forward, it is both the player's and the agent's responsibility to be aware of the decision they are about to make.

The key topics that should be discussed here are:

- each party involved
- services provided
- compensation structure
- agent duties
- player obligations
- term of contract
- governing law
- confidentiality
- arbitration
- dispute
- termination steps
