

Split Backs Open: Midzone Midline Read

Oklahoma v. Kansas State

Strategy: Great when going against an elite Defensive Lineman. Why Block him when you can Read him? Great way to slow down Linebacker flow as well.

QB Progression/Read: Mesh with the RB on his Midzone path, read the 1st down defender backside.

X - Block Corner

H - Lead to Alley Defender (Sam Linebacker)

Y - Block \$

Z - Dig Out F/S for the QB

T - Midzone Path, read the Block of the Playside Tackle

LT - Drive Reach Anchor

LG - Combo 2i to Mike Linebacker

C - Combo 2i to Mike Linebacker

RG - Release up to Will Linebacker

RT - Man Locked on Defensive End
