HEMP

The use of hemp oil
in the latest-generation cosmetics
is becoming increasingly important,
thanks to its excellent
nutritional properties and **beneficial effects**.

Hemp is rich in ***Omega-3 and Omega-6 polyunsaturated fatty acids, trace elements*** (iron, calcium, magnesium, potassium and phosphorous) and ***vitamins*** (E, A, B and C), essential to preserve the right level of hydration and hydrolipidic balance.

This makes hemp oil-based cosmetics invaluable for hair that tends toward **dryness** and **ageing**.
